

## STATEMENT OF PURPOSE

### RS24177C1

This legislation extends the geographic area where citizens may carry a concealed weapon without a permit. Currently, permitless carry applies to all areas outside of city limits—creating confusion and unintentional violations when citizens with concealed weapons travel into and across city boundaries. This legislation allows permitless carry within cities, but not where the owner does not approve or where otherwise prohibited by state or federal law (schools, etc.).

### FISCAL NOTE

No impact to the General Fund.
