

## STATEMENT OF PURPOSE

### RS25423

Allows the department to request and require an employee, applicant, contractor or prospective contractor, who has or will have access to IRS federal tax information, to provide the information and fingerprints necessary for obtaining criminal history information from the Idaho State Police and the Federal Bureau of Investigation, pursuant to section 67-3008, Idaho Code. The Internal Revenue Service has a new requirement for positions with access to federal tax data to have a national criminal history background check. The department will use the information derived from the background check to determine the suitability of those positions, employees, applicants or contractors that would have access to federal tax information.

### FISCAL NOTE

Twenty-six positions currently work with or have access to Federal Tax Information and are required by the Internal Revenue Service to undergo a state and federal fingerprint-based background check.

The estimated fiscal impact of this legislation includes conducting FBI fingerprint-based background checks through the Idaho State Police on 26 existing employees and contractors at \$47 per person and will be \$1,222.
