

STATEMENT OF PURPOSE

RS26129

This legislation would establish a removal and replacement process for flood control district commissioners. Unlike statutes governing the appointment of government officials to other positions, the current statute for flood control district commissioner appointments by the Director of the Idaho Department of Water Resources does not provide a mechanism for removal and replacement of a commissioner.

FISCAL NOTE

The time and effort required for any investigation and decision-making conducted by the Director is expected to fit within the existing budget of the Department. As a result, there is no expected fiscal impact to the state General Fund.
