

## STATEMENT OF PURPOSE

### RS26646C1

This legislation deals with creating a County-wide Fair District. It follows the language found in Idaho Code to create other local taxing districts, such as a recreation district. The Agriculture industry is an important part of Idaho's economy and the purpose of Agriculture Fairs is to help educate the ever-growing, urban populous about the importance of Agriculture in our respective communities, as well as give our local and regional producers a venue to showcase their products. The reasoning behind the formation of the Fair District is to provide the opportunity for the entire populous to attend the Fair at no cost for entrance regardless of their financial position. The goal is to provide the opportunity for the voters to decide whether they want to implement this type of district within one county for the operation of the annual fair.

### FISCAL NOTE

There is no fiscal impact to the General Fund. If implemented, this would increase funding to the Fair District by increasing property tax up to a maximum of one-tenth of one percent (0.1%) of the market value of all of the taxable property within the district
