

STATEMENT OF PURPOSE

RS24369C2

This legislation provides that a one-time violator of 18-1502, Idaho Code, for the use, possession, or dispensing of alcohol products by a person under 21, may have a finding of guilt vacated and the court records sealed if the violator does not have an alcohol or drug related finding of guilt within 5 years following the violation. It is estimated that there are thousands of people who have only this misdemeanor conviction on their record. This change will affect those who are 18-21 years old when the ticket was issued. The Court system will provide a form for this purpose and no fee can be charged.

FISCAL NOTE

There is a de minimus fiscal impact.
