

STATEMENT OF PURPOSE

RS24594C1

This legislation, called the "Idaho Safe Families Act", enhances current Idaho law, which allows temporary voluntary custody arrangements between families outside of the Idaho Child Protection Services foster care system. This legislation extends existing legislation to a year for temporary custody and longer for active-duty military. It adds new legislation to Idaho Code to specify that non-profit organizations can be involved in helping facilitate these voluntary partnerships between families. It will provide a less restrictive option to support families in crisis before conditions rise to the level of CPS intervention.

FISCAL NOTE

There is no impact to the General Fund.
