

STATEMENT OF PURPOSE

RS24484

Section 74-206(c), Idaho Code allows a governing body of a public agency to go into Executive Session to consider acquiring "an interest in real property which is not owned by a public agency." However, Idaho Code does not allow Executive Session discussions regarding the sale of real property either to a public agency, commercial entity, or private individual. A governing body needs the ability to discuss acceptable counteroffers and other applicable conditions regarding the sale of public property in Executive Session. This legislation will allow limited discussions of the sale of public property to occur in Executive Session.

FISCAL NOTE

There is no fiscal impact to the General Fund or to school districts in Idaho.
