

STATEMENT OF PURPOSE

RS25340C1

This legislation would allow a school board, if it chooses, to ask for verification that the local education organization 1) held an election by secret ballot and 2) conducted the election within the last two years wherein a majority indicated their desire to be represented by the organization.

This legislation leaves in place the statute that says the school board may request verification that the local education organization represents at least 50 percent of the professional employees.

FISCAL NOTE

There is no impact to the General Fund and is unlikely to impact the funds of local school districts. If a school board does decide to request the information as outlined in this legislation, it would be up to the local education organization to comply with that request at its own expense.
