

## STATEMENT OF PURPOSE

### RS25794

This legislation amends Section 33-118, Idaho Code, regarding courses of study and content standards for public schools. This legislation effectively repeals Common Core as a state requirement for school districts. When the State Board of Education uses Common Core standards, districts may adopt alternative content standards and associated curricular materials.

### FISCAL NOTE

This legislation requires no additional expenditures for the State Department of Education or the State Board of Education. There is no direct impact on the general fund. Districts may choose alternative standards and curricula and bear those costs within existing budgets.
