INCORPORATION BY REFERENCE SYNOPSIS

In compliance with Section 67-5223(4), Idaho Code, the following is a synopsis of the differences between the materials previously incorporated by reference in this rule that are currently of full force and effect and newly revised or amended versions of these same materials that are being proposed for incorporation by reference under this rulemaking.

The following agency of the state of Idaho has prepared this synopsis as part of the proposed rulemaking for the chapter cited here under the docket number specified:

STATE BOARD OF EDUCATION
IDAPA 08.02.03 - Rules Governing Thoroughness
Proposed Rulemaking - Docket No. 08-0203-1901

Like non-career technical education (CTE) subject areas, CTE subject areas taught in public schools are based on CTE Content Standards. The Division of Career Technical Education works with various educators and industry groups to establish and update these content standards. Content standards are approved by the State Board of Education as the Board for Career Technical Education, unlike other subject area content standards CTE Content Standards had not been formalized through the Administrative Rule process. In 2016 work began to add CTE content standards to administrative rule in the same manner as academic content standards such as math, English, etc. Due to the number of standards it was recognized this would be a multiyear effort. In 2017, 2018, and 2019 a portion of the existing CTE content standards were brought forward and incorporated by reference into Administrative Code. For the 2020 Legislative Session the Board will be going through the process to incorporate standards for the following additional areas:

- Agriculture and Natural Resources
 - Food Science and Processing Technology – new incorporation of subsection/existing standard content area
- Business and Marketing Education
 - Hospitality Management - new incorporation of subsection/existing standard content area
 - Computer Support - updated incorporated subsection in existing standard
- Health Sciences
 - Rehabilitation Services - new incorporation of subsection/existing standard content area
- Skilled and Technical Sciences
 - Electrical Apprenticeship – new incorporation of subsection/existing standard content area
 - HVAC Apprenticeship – new incorporation of subsection/existing standard content area
 - Plumbing Apprenticeship - new incorporation of subsection/existing standard content area
