

STATEMENT OF PURPOSE

RS27700 / SCR131

This Concurrent Resolution recognizes the economic benefits to Idaho arising from increased use of electric vehicles, and asks the Idaho Building Code Board to study and consider standards for multifamily residential dwellings and commercial buildings that include electric vehicle-capable infrastructure.

FISCAL NOTE

This Concurrent Resolution would not require any outlay from the General Fund or any other state or local fund. The Idaho Building Code Board already conducts analysis of many factors in considering code standards, and this Resolution would not cause additional costs to be incurred in that process.
