iii. The requirement that any changes made to any of the controls contained on the agent's list after the initial commissioning be re-set back to the commissioned settings unless it can be demonstrated that the new settings result in greater energy efficiency. ()

b. The annual optimization review shall be performed by persons qualified to make the required determinations and adjustments. ()

c. Following the annual optimization review, the school district shall submit to the Division written verification indicating (1) the systems identified by the commissioning agent, including those identified in this Section are functioning as they were at the initial commissioning; and (2) identifying the persons performing the optimization and their qualifications.
