ARE FROM
RURAL IDAHO.

SPECIAL BUDGET REQUESTS: SOLVING IDAHO'S PROBLEMS

MENTAL HEALTHCARE

PROBLEM

100% of counties have a mental health care shortage.*

SOLUTION

U of I Doctor in Clinical Psychology (PsyD) graduates will treat addiction disorders and address suicide prevention.

OUTCOMES

10-15 graduates a year will treat Idahoans with mental health issues such as substance abuse, depression and suicidal thoughts.

PRIMARY CARE

PROBLEM

98% of state has a primary care workforce shortage.*

SOLUTION

Physician assistant (PA) or nursing graduates will serve our neighbors with urgent care, and family and emergency medicine.

OUTCOMES

15-20 graduates a year will provide skilled medical care, improve health outcomes, and save lives.

CYBERSECURITY

PROBLEM

Critical systems that serve our state and industry are at risk from cyberattacks.

SOLUTION

- Increase the number of graduates with cybersecurity degrees to help fight cyberterrorism
- Research to understand how to stop cybersecurity attacks

OUTCOMES

Increase up to 285 students enrolled annually who will protect our state from malicious actions and bad actors.

THE VALUE OF UNIVERSITY RESEARCH TO THE STATE OF IDAHO

RESEARCH

Research results create more questions - more money brought in for research

EMPLOYERS HIRE VANDALS BECAUSE OF THEIR RESEARCH EXPERIENCE

Research and hands-on experience prepare graduates to contribute to their employers from day one. Vandals earn the highest starting salaries of all public graduates in Idaho.

POISED TO ACHIEVE
CARNEGIE R1
VERY HIGH RESEARCH ACTIVITY

This brings more Idaho tax dollars home to solve Idaho's problems.

ANSWERS HELP INDUSTRIES THRIVE

Research by U of I fills a need industry does not have the money or resources to do on its own. The answers drive industry success, increasing economic return to the state.

UNDERGRADUATES - MORE THAN 50% ENGAGE IN RESEARCH

College graduates make more than \$1M more over the course of their careers - improving economics of their communities

INDUSTRY GROWS - NEED MORE EMPLOYEES

Hiring locally and investing in Idaho's graduates is economically beneficial for all. Research ignites startups and spinoffs.
