

Dear Senators BURTENSHAW, Adams, Semmelroth, and  
Representatives MENDIVE, Shepherd, Burns:

The Legislative Services Office, Research and Legislation, has received the enclosed rules of the  
Division of Occupational and Professional Licenses - Outfitters and Guides Licensing Board:  
IDAPA 24.35.01 - Rules of the Outfitters and Guides Licensing Board - Proposed Rule (Docket  
No. 24-3501-2301).

Pursuant to Section 67-454, Idaho Code, a meeting on the enclosed rules may be called by the  
cochairmen or by two (2) or more members of the subcommittee giving oral or written notice to Research  
and Legislation no later than fourteen (14) days after receipt of the rules' analysis from Legislative  
Services. The final date to call a meeting on the enclosed rules is no later than 10/23/2023. If a meeting is  
called, the subcommittee must hold the meeting within forty-two (42) days of receipt of the rules' analysis  
from Legislative Services. The final date to hold a meeting on the enclosed rules is 11/20/2023.

The germane joint subcommittee may request a statement of economic impact with respect to a  
proposed rule by notifying Research and Legislation. There is no time limit on requesting this statement,  
and it may be requested whether or not a meeting on the proposed rule is called or after a meeting has  
been held.

To notify Research and Legislation, call 334-4854, or send a written request to the address on the  
memorandum attached below.

### MEMORANDUM

**TO:** Rules Review Subcommittee of the Senate Resources & Environment Committee and the House Resources & Conservation Committee  
**FROM:** Deputy Division Manager - Katharine Gerrity  
**DATE:** October 04, 2023  
**SUBJECT:** Division of Occupational and Professional Licenses - Outfitters and Guides Licensing Board

IDAPA 24.35.01 - Rules of the Outfitters and Guides Licensing Board - Proposed Rule (Docket No. 24-3501-2301)

#### Summary and Stated Reasons for the Rule

The Division of Occupational and Profession Licenses submits notice of proposed rule at IDAPA 24.35.01 - Rules of the Outfitters and Guides Licensing Board. According to the division the proposed rulemaking is being presented to create better consistency between the statutes and rules. The division notes that the rulemaking will clarify the impact of tag transfers and create better consistency with the tag allocations made by the Fish and Game Commission. The division states that the rulemaking will also address the outfitter limitations on Idaho rivers, lakes, and reservoirs. Fees are not affected by the rule changes.

#### Negotiated Rulemaking / Fiscal Impact

Negotiated rulemaking was conducted and there is no fiscal impact to the general fund.

#### Statutory Authority

The rulemaking appears to be authorized pursuant to sections 36-2107, 36-2110, 36-2113, 36-2119, 67-2614, 67-9406, and 67-9409, Idaho Code.

cc: Division of Occupational and Professional Licenses - Outfitters and Guides Licensing Board

**THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 24-3501-2301**  
**(Only Those Sections With Amendments Are Shown.)**

**257. DESIGNATION OF ALLOCATED DEER AND ELK TAGS.**

For the purposes of this section, an outfitting operation is an outfitter licensee whose licensed activities include hunting for the species in the area of the allocated tag being designated. When IFGC allocates tags, the allocated tags will be designated pursuant to Section 36-2120, Idaho Code, and this rule. The designation applies for the next season unless IFGC adjusts the number of allocated tags for the hunt. (4-6-23)

**01. Notification.** All notices, orders, or other documents may be made to the email address on file with the Board. (4-6-23)

**02. Outfitted Hunter Tag Use History.** Each outfitter's hunter tag use history will be determined from the use recorded by IFGC pursuant to Section 36-408(4), Idaho Code, and as may be adjusted as a result of a tag transfer or hardship request that is approved by the Board. (4-6-23)

**a.** Transfers. An outfitting operation is credited for use of an allocated tag that it transfers to another outfitting operation for use that year in the same hunt. The receiving outfitting operation is not credited for using the transferred tag. (4-6-23)

**b.** Surrenders. An outfitting operation may surrender a designated allocated tag(s) to the undesignated tag pool for use by any outfitting operation in the same hunt. The surrendering outfitting operation is not credited for use of the surrendered tag unless it later uses the tag from the pool. (4-6-23)

**03. New Hunt Allocated Tag Designation.** When the IFGC allocates tags for a newly capped or controlled hunt, the allocated tags will be designated proportionately as follows: (4-6-23)

**a.** Divide each outfitting operation's base allocation by the total of all base allocations in the hunt, resulting in a percentage of total use. Truncate the decimal at the hundredths place. (4-6-23)

**b.** Multiply the percentage of total use from Subsection 257.03.a. of these rules by the total number of allocated tags for the hunt, which determines the number of allocated tags designated to the outfitting operation. (4-6-23)

**04. Use of Previously Designated Allocated Tags.** For established capped or controlled hunts, allocated tags will first be designated to each outfitting operation in an amount equal to the outfitting operation's use

of the allocated tags previously designated to it for the same hunt. (4-6-23)

**a.** In a capped hunt, the use of previously designated allocated tags is the average use of allocated tags in the preceding two (2) years; in the event that IFGC adjusts the number of allocated tags in a hunt where there is only one (1) year of allocation, the Board will not average the use. (4-6-23)

**b.** In a controlled hunt, the use of previously designated allocated tags is the highest year of use of allocated tags in the preceding two (2) years. (4-6-23)

**05. Remaining or Additional Allocated Tags.** Allocated tags not designated above will be designated proportionately as follows: (4-6-23)

**a.** Subtract each outfitting operation's use of previously designated allocated tags from Subsection 257.04 from its base allocation number to determine the number of non-allocated tags it used for a capped hunt or the matching hunt with non-allocated tags for a controlled hunt, when necessary to determine non-allocated tag use; then (4-6-23)

**b.** Divide the result by the total number of non-allocated tags used by all outfitting operations, resulting in a percentage of the total non-allocated tags used by outfitting operations in that hunt. Truncate the decimal at the hundredths place; and finally (4-6-23)

**c.** Multiply the percentage of total use from Subsection 257.05.b. by the number of allocated tags yet to be designated, which determines the number of allocated tags designated to the outfitting operation. (4-6-23)

**06. Rounding.** If allocated tag designation results in a partial tag, the calculation will be rounded up when a decimal equals or exceeds six tenths (0.6) and rounded down when a decimal is less than six tenths (0.6). When calculating after a reduction of allocated tags pursuant to Section 36-2120(4), Idaho Code, the calculation will be rounded up when a decimal equals or exceeds five tenths (0.5) and rounded down when a decimal is less than five tenths (0.5). (4-6-23)

**07. Tie-breaker.** If, after applying Subsections 257.03 through 06, there is a surplus or deficit of allocated tags to be designated, the unrounded proportion from Subsection 257.05, with as many decimal places as necessary, will be used, and then as follows: (4-6-23)

**a.** After a reduction in allocated tags, surplus tags will first be designated in amounts to restore outfitter operations to the number of tags that would have otherwise been designated pursuant to Subsection 257.04 or as close thereto as practicable. (4-6-23)

**b.** If a surplus, the outfitting operation whose unrounded proportion is the greatest will be designated one (1) tag, and if there are additional surplus tags, the outfitter with the next greatest unrounded proportion will be designated one (1) allocated tag, and repeated in descending unrounded proportions until all surplus tags are designated. In the event there is more than one outfitting operation with the same unrounded proportion and there are insufficient undesignated tags to designate to each outfitter, the undesignated tag will be designated based on a random drawing between those outfitting operations. (4-6-23)

**c.** A deficit will be resolved from the outfitting operation whose unrounded proportion is closest to six tenths (0.6), and then next closest to six tenths (0.6) when there is a deficit of more than one (1) allocated tag. If there is more than one (1) outfitting operation with the same unrounded proportion, a random drawing will be held between those outfitters. (4-6-23)

**08. Stipulation by Outfitters.** Outfitting operations in a hunt may submit to the Board a written stipulation determining the number of allocated tags designated to each outfitting operation in that hunt. The stipulation must be signed by all eligible outfitting operations for the hunt; however, under special circumstances, the Board may waive the requirement of approval from all other outfitting operations. If the Board approves the stipulation, the stipulation will be effective until the next designation of allocated tags for the hunt. On or before November 1 preceding the hunt, any outfitting operation may petition the Board to vacate the stipulation for good cause that would make it unconscionable or unjust to enforce the stipulation. If the Board vacates the stipulation, the

allocated tags in that hunt will be designated pursuant to Section 36-2120, Idaho Code, and this rule. (4-6-23)

**09. Undesignated Tag Pool.** Any designated allocated tags that are surrendered or have not been utilized by an outfitting operation on or before July 16 or the next business day for a capped hunt, or on or before September 10 or the next business day for a controlled hunt, will be available in an undesignated pool for any outfitting operation, as follows: (4-6-23)

**a.** Beginning April 10 preceding the hunt, an outfitting operation may submit a request for an allocated tag from the pool. The request must be on a Board-approved form. (4-6-23)

**b.** Beginning April 20 preceding the hunt or next business day, an allocated tag will be designated from the pool on a first-come, first-served basis to an outfitting operation without any designated allocated tags or which has utilized all of its designated allocated tags, using a waiting list when necessary. A maximum of two (2) allocated tags will be designated to each requesting outfitting operation until all other requesting outfitting operations have been served, then a requesting outfitting operation is eligible to receive a maximum of two (2) additional allocated tags from the pool, repeated until all requesting outfitting operations are served or until no tags remain. (4-6-23)

**c.** No tags designated from the pool will be considered for historical use calculations until all tag transfers are recorded and all hardship requests have been resolved. ( )

**10. Objection to Calculation.** If an outfitting operation believes the calculation is incorrect, it may object by filing a petition with the Board within fourteen (14) days from the date the notification was sent and in accordance with the Idaho Administrative Procedures Act. The petition will include any supporting information or documentation. (4-6-23)

**a.** All outfitting operations in the hunt in question will be notified of the petition. (4-6-23)

**b.** The outfitting operation bears the burden of establishing that the calculation was incorrect. (4-6-23)

**11. Hardship Request.** An outfitting operation may submit a written hardship request to maintain all or a portion of previous outfitted hunter tag use history when the outfitting operation shows good cause that its use of allocated designated tags was impacted by circumstances beyond the outfitting operation's control. The request must be submitted on or before a deadline set by the Board. The outfitting operation must provide information or documentation as requested by the Board to substantiate the request. (4-6-23)

**12. Change in Operating Area or Owner of Business.** When an outfitting operation is sold or when an operating area is adjusted through a sale and designated allocated tags are associated with the affected operating area, the associated designated allocated tags and tag use history will transfer to the new owner. (4-6-23)

**(BREAK IN CONTINUITY OF SECTIONS)**

**259. RIVER, LAKE, AND RESERVOIR POWER AND FLOAT OUTFITTER LIMITS.**

For the express purpose of safeguarding the health, safety and welfare of the public, for the conservation of wildlife and range resources, and to enable the outfitted and non-outfitted public to enjoy the recreational value of Idaho's rivers, streams, lakes, reservoirs and other natural resources, the Board has discretion to limit the number of outfitters licensed on waters that lie totally or partially within the State of Idaho. Pursuant to Section 36-2107(e), Idaho Code, the Board may cooperate with federal and state government to evaluate relevant factors in decisions related to setting outfitter licensure limits on navigable waterways. The following rivers and streams or sections that lie totally or partially within the state of Idaho are open to commercial boating operations by outfitters and guides. (4-6-23)
