

STATEMENT OF PURPOSE

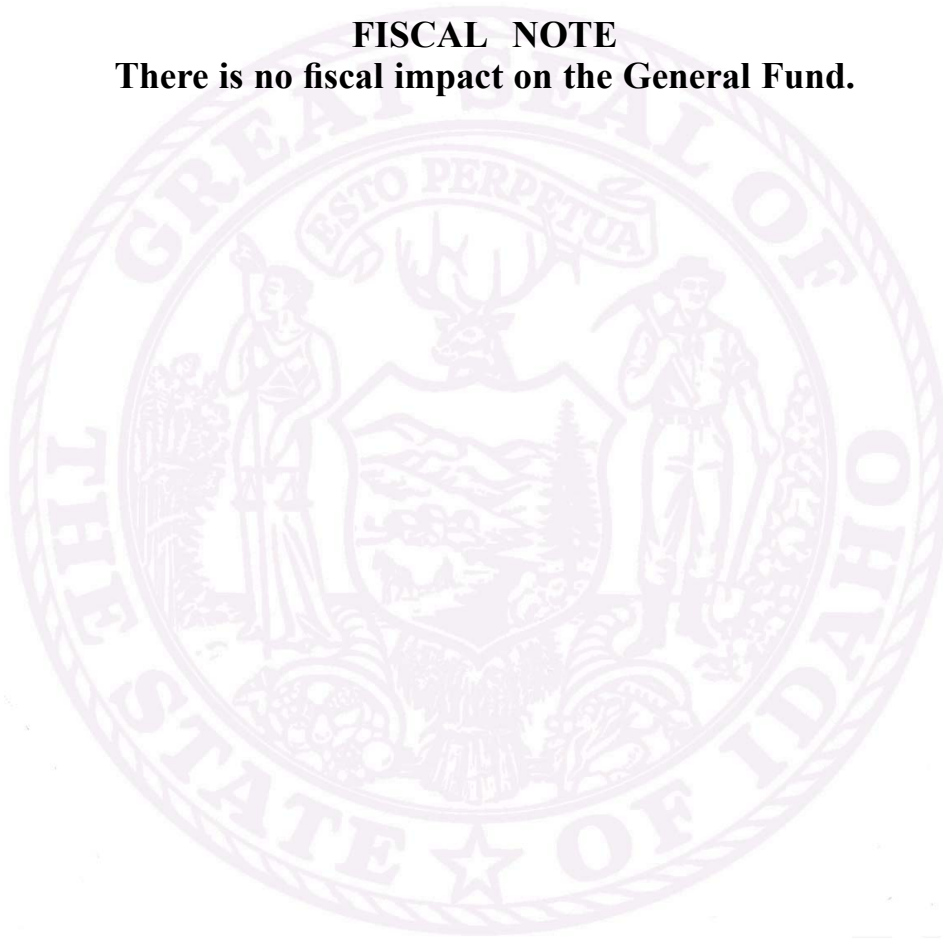

RS21210

This legislation adds another exemption from state regulatory oversight, under Idaho Code 54-1016. The law now appears to require this oversight on low voltage installation of telephones, speaker systems, computer systems, home theater systems, stereo systems, sprinkler controls, antenna systems, etc.

This legislation simply makes clear that the oversight of specified activities are exempt under Idaho Code 54-1016.

FISCAL NOTE

There is no fiscal impact on the General Fund.
