

## STATEMENT OF PURPOSE

RS32101 / H0200

The Idaho State Board of Pharmacy went through zero-based regulation throughout 2024 and presented their pending rules to the Legislature early in the 2025 session. The Legislature approved these rules with one section rejected in both chambers. This bill takes the remaining rules approved by the Legislature and integrates them into the statute. While modest changes are made to integrate the rules into statute, including leveraging the Legislature's drafting guide, moving these rules to statute does not expand or contract existing practice authority, and this bill is intending to take approved and final rules and return oversight of policy changes to the Legislature moving forward.

## FISCAL NOTE

Because this bill only moves currently approved legislative rules into statute, there is no increase or decrease in revenue, or additional expenditure of funds at the state or local level of government; therefore, this legislation has no fiscal impact.
