Open for Recruitment: October 11, 2019 – November 1, 2019

Starting Salary: $47,000 – 55,000 DOE - Plus Competitive Benefits!
Location(s): Boise

SPECIAL NOTIFICATION: This position is exempt from classified state service and the rules of the Division of Human Resources and the Idaho Personnel Commission.

The Legislative Services Office is accepting applications for the position of IT Programmer Analyst / Web Developer - This is a 10-12 month full-time position, with potential to become permanent. This is an excellent opportunity for someone wanting to return to the workforce or a recent college graduate with a Computer Science or related degree who desires some real work experience.

The candidate should be focused, detail oriented and competent in coding. You will have a primary role in helping to create, design, develop, and test various software programs. You'll also have the opportunity to solve a variety of existing software problems, working in a team environment with other developers, and helping to correct designs, programs and applications. Candidate will possess the talent to create and modify specific programs with the ability to convert all project requirements into code.

Our applications are written in a variety of languages and relational databases (Oracle 12c, MySQL and Microsoft SQL). Our mission critical application is written in JAVA EE, Oracle and XML; we also have applications written in ASP.NET AND C#.

RESPONSIBILITIES:
- Performs / supports all aspects of applications programming;
- May maintain and modify vendor software packages;
- Resolves programming problems and determines appropriate solutions;
- Design, Analyze and Develop new and/or maintain existing programs;
- Share knowledge by effectively communicating with team members and documenting work;
- Develop reports using, but not limited to, JasperReports, Microsoft Word and Microsoft Excel;
- Other duties as assigned.

MINIMUM QUALIFICATIONS: Seeking or have a degree in Computer Programming. Understanding and familiarity with several coding languages such as Java, Java Script, Jquery, C#, XML, HTML; Knowledge and fundamentals of software development, design, tuning, testing, and debugging; Critical thinking, troubleshooting and problem-solving skills; Ability to manage time efficiently and ability to work in a team environment.

Desirable Experience: Internet related technologies such as web design/programming using WordPress and PHP. Linux, JAVA EE, programming with version control, Oracle JDeveloper IDE; Oracle Weblogic Server, Oracle JasperReports, Apache Tomcat, Apache Web Server and XML Schema.

TO APPLY: Mail or e-mail cover letter, resume and professional references to:
