Non-Classified Opening

Legislative Services Office

Open for Recruitment: July 15 – August 2, 2024
Starting Salary Range: 57,000 - 67,000 DOE - Plus Competitive Benefits!
Location: Idaho State Capitol, Boise

SPECIAL NOTIFICATION: This position is exempt from classified state service and the rules of the Division of Human Resources and the Idaho Personnel Commission.

The Legislative Services Office is accepting applications for the position of

IT Software Developer / Analyst

Position Description: This is a full-time, on-site, limited-service appointment (funding available through December 2026) with the potential to become permanent. This is an excellent opportunity for someone wanting to return to the workforce or a recent college graduate with a Computer Science or related degree who desires some real work experience.

The candidate will work with our Application Development team in developing and maintaining custom software. Including extending the functionality of our Java/J2EE/Oracle desktop application and supporting web applications utilizing various frameworks. Coordinate with team members to design new software solutions that work with existing systems.

Responsibilities:
- Design, develop, test and document application code.
- Identify and resolve problems and determine appropriate solutions.
- Refactor legacy programming code into current standards.
- Other duties as assigned.

Minimum Qualifications: Bachelor's degree in Computer Science or relevant work experience in Object Oriented application development with Java; Spring and SpringBoot frameworks; Knowledge of SOLID principles and Domain Driven Design; Experience in Test Driven Development; Fundamental web development with HTML, CSS and JavaScript; Version control with Git Extensions, GitLab;

Desirable Experience Web development with technologies such as WordPress, PHP, JavaScript, React; Experience writing C++ applications, specifically utilizing the Win32 API; Linux System Administration with server technologies similar to Apache Tomcat and Oracle WebLogic. Oracle Database 19c and experience working with XML Schema, DTD, XPath and XSLT; Familiarity with using and managing Docker Containers.

About the Legislative Services Office:

- Career long learning opportunities
- Service-First culture
- Opportunity to play an integral role in the governmental process.
