USES OF THE IDAHO MILLENNIUM INCOME FUND. The Joint Millennium Fund Committee, pursuant to Section 67-1808(6), Idaho Code, recommends that all moneys available for appropriation from the Idaho Millennium Income fund beginning in fiscal year 2024 and each year thereafter be prioritized for programs that focus on prevention, cessation, and treatment related to tobacco, vape, alcohol, illegal substances, and other substances that may be abused beyond the intended uses and for the overall safety and well-being of Idaho youth. Funding should be prioritized first to programs that benefit Idahoans under 18 years of age and then for adults with higher risk factors for abusing or using various substances described in this section. It is the recommendation of the Joint Millennium Income Fund that no moneys from the Idaho Millennium Income Fund be used for the payment of Medicaid claims. In accordance with the priorities of this section, any requested funds not already an ongoing appropriation in fiscal year 2027 shall be presented in the Legislative Budget Book as a request for new onetime appropriation in the Idaho Millennium Fund Program and in the respective agency budgets. Consistent with Section 67-1806, Idaho Code, the Joint Millennium Fund Committee shall be responsible for the official recommendation on the uses of the Idaho Millennium Income Fund.

ACT, PEER SUPPORT SERVICES, STAD

ACT (Assertive Community Treatment) - Assertive Community Treatment provides intensive, multidisciplinary, team-based support for individuals with severe and persistent mental illnesses in their community, rather than in a hospital setting. Services are personalized, person-centered, and available 24/7, covering mental health treatment, substance use disorder treatment, medication management, housing assistance, vocational support, and help with daily life skills, aiming to integrate clients into the community and improve their quality of life.

Total Members Served: 303

Peer Support Services - Adult mental health peer support services are a form of recovery-oriented care provided by and for people with lived experience of mental health challenges. These services offer hope, empowerment, and guidance through supportive interactions and shared experiences, helping individuals set and achieve personal goals for recovery and wellness.

Total Members Served: 5,139

STAD (Skills Training and Development) - If you are in recovery from substance use concern, life skills can help you cope with the demands and challenges of life. Programs can help you enhance personal or family relationships, reduce work or family conflict, and adopt healthy, recovery-oriented behaviors.

Total Members Served: 40
