IDAHO ABORTION COMPLICATIONS
Annual Report to the Legislature SFY2026

IDAHO ABORTIONS COMPLICATIONS, DEPARTMENT OF HEALTH AND WELFARE REPORT REQUIRED BY IDAHO CODE 39-9504, AND DUE DECEMBER 15, 2026.

Purpose

The Abortion Complications Reporting Act, Title 39, Chapter 95 Idaho Code requires the state to collect information on complications resulting from abortions and to compile statistical reports based on the information in the reports.

The Abortion Complications Reporting Act:

https://legislature.idaho.gov/statutesrules/idstat/Title39/T39CH95/

Complication data are based on complications defined in Idaho Code Section 39-9503. Note that the requirements as outlined in 39-9504(1) do not limit provider responsibility to reporting complications resulting from abortions which occurred in the state.

Reports

There was one abortion complications report provided to the Bureau of Vital Records and Health Statistics in 2025. The abortion procedure was reported to have occurred in 2025 to an Idaho resident aged 35 or older, who was white, and who had at least one previous pregnancy. Hispanic origin was not reported. The complications reported were:

- Blood clots
- Blood transfusion
- Hemorrhage
