IDAPA 02.01.04 - Rules Governing The Idaho Preferred Promotion Program
(Docket #02-0104-0801)

IDAPA 02.04.03 - Rules Governing Animal Industry (Docket #02-0403-0801)

IDAPA 02.04.21 - Rules Governing The Importation Of Animals
(Docket #02-0421-0802)

(Docket #02-0427-0801)

IDAPA 02.06.09 - Invasive Species Rules (Docket #02-0609-0801)

1. IDAPA 02.01.04 - Rules Governing The Idaho Preferred Promotion Program

The Idaho State Department of Agriculture submits notice of a proposed rule at IDAPA 02.01.04 - Rules Governing The Idaho Preferred Promotion Program. According to the Department, the purpose of the rule is to define product qualifications for lamb, pork, poultry and other meats not already defined in the existing rule. In addition, the Department notes that the approval for use of logo section will be amended to correct duplication concerning submission of samples. The Department states that informal negotiated rulemaking was conducted.

We have no specific comments relating to this proposed rule. The action appears to be authorized pursuant to Section 22-112, Idaho Code.

2. IDAPA 02.04.03 - Rules Governing Animal Industry

The Idaho State Department of Agriculture submits notice of a proposed rule at IDAPA 02.04.03 - Rules Governing Animal Industry. According to the Department, Idaho's equine industry requested that the Department place Equine Viral Arteritis (EVA), a viral disease found in horses, mules and asses, on the state veterinarian's reportable disease list to provide clear authority to prevent and control the disease. In addition, various documents and some updates to documents are being incorporated by reference. The Department also states that a new form of equine herpes virus was added to the USDA's list of notifiable diseases and needs to be added to Idaho's rules. Finally, the Department notes that ponies and zebras are being added to the definition of "Equidae". The Department states that informal negotiated rulemaking was conducted.

The action appears to be authorized pursuant to provisions of Chapter 2, Title 25, Idaho Code.

3. IDAPA 02.04.21 - Rules Governing The Importation Of Animals

The Idaho State Department of Agriculture submits notice of a proposed rule at IDAPA 02.04.21 - Rules Governing The Importation Of Animals. According to the Department, this rule also partially originates based on the desire of Idaho's equine industry to have Equine Viral Arteritis (EVA) placed on the reportable disease list. The Department states that the USDA's EVA Uniform Methods and Rules are incorporated by reference to outline biosecurity procedures for the disease and that there are updates to other documents that are incorporated by reference. The Department adds that there is a method of genetic purity verification added to the options for imported domestic cervidae (registration with the Montana Department of Livestock) and that additional documents for certification of the health of imported fish are added to the fish importation requirements. Several other changes of a technical nature have also been made. The Department states that informal negotiated rulemaking was conducted.

We have no specific comments relating to this rule. The action appears to be authorized pursuant to provisions of Chapter 2, Title 25, Idaho Code.

4. IDAPA 02.04.27 - Rules Governing Deleterious Exotic Animals

The Idaho State Department of Agriculture submits notice of a proposed rule at IDAPA 02.04.27 - Rules Governing Deleterious Exotic Animals. According to the Department, the rule will clarify the Department's criteria and requirements for the possession and importation of deleterious exotic animals in the state. The Department notes that the changes include the addition of definitions, requirements for obtaining permits, standards for construction of confinement areas, identification requirements, and record keeping requirements. The list of deleterious exotic animals has also been revised. The Department indicates that negotiated rulemaking was conducted.

We note that the changes to the rule provide that the Administrator may add or remove animal species to the list of deleterious exotic animals in the rule by issuing a written order listing the animals as well as the reason for the addition or removal from the list. The rule presently provides for the animals listed. The Committees should note that Section 25-3904, Idaho Code, does provide for the designation by rule *or order*. We also note that the Department proposes to remove various invertebrates and fish that presently appear on the list pursuant to the rule. It appears that the rule relating to invasive species, as reviewed in subpart 5 of this memorandum, picks up those species that are being removed from the list in this rule.

We have no other comments relating to this rule. The action appears to be authorized pursuant to Sections 25-3902 and 25-3903, Idaho Code.

5. IDAPA 02.06.09 - Invasive Species Rules

The Idaho State Department of Agriculture submits notice of proposed rule at IDAPA 02.06.09 - Invasive Species Rules, which is a new chapter. According to the Department, the rule determines which species are invasive in Idaho and establishes procedures for testing, sampling, inspection, certification, permitting, compliance verification and record keeping. The Department notes that negotiated rulemaking was conducted.

We have no specific comments relating to this rule. The action appears to be authorized pursuant to Sections 22-1907, 22-2006 and 22-2015, Idaho Code.
