- 1. IDAPA 11.04.02 - Rules Governing Simulcasting - Docket No. 11-0402-0801**
- 2. IDAPA 11.04.02 - Rules Governing Simulcasting - Docket No. 11-0402-0802**
- 3. IDAPA 11.04.02 - Rules Governing Simulcasting - Docket No. 11-0402-0803**
- 4. IDAPA 11.04.13 - Rules Governing The Idaho State Racing Commission - Docket No. 11-0413-0801**

1. IDAPA 11.04.02 - Rules Governing Simulcasting

The Idaho State Police (ISP), State Racing Commission, submits notice of temporary and proposed rule at IDAPA 11.04.02 - Rules Governing Simulcasting. The action repeals the current rule and, as set forth in Section 2 of this memorandum, replaces it with a new chapter. Negotiated rulemaking was not conducted. The temporary rule is effective November 12, 2008. The rulemaking appears to be authorized pursuant to Sections 54-2506 and 54-2508, Idaho Code.

2. IDAPA 11.04.02 - Rules Governing Simulcasting

The Idaho State Police (ISP), State Racing Commission, submits notice of temporary and proposed rule at IDAPA 11.04.02 - Rules Governing Simulcasting. According to the Commission this is a rewrite of the current rule that provides a clear and concise chapter on the

simulcast rules. The Commission notes that it also conforms more closely with model rules of the Association of Racing Commissioners International. The effective date of the temporary rule is November 12, 2008.

Negotiated rulemaking was not conducted but the Commission states that the rule was developed with input from a committee comprised of representatives of all segments of the horse racing industry.

The rulemaking appears to be authorized pursuant to Sections 54-2506 and 54-2508, Idaho Code.

3. IDAPA 11.04.02 - Rules Governing Simulcasting

The Idaho State Police (ISP), State Racing Commission, submits notice of temporary and proposed rule at IDAPA 11.04.02 - Rules Governing Simulcasting. According to the Commission, virtual racing promotes the purpose of enhancing and protecting the live horse race industry in Idaho by increasing the proceeds paid to the horsemen's groups which contributes to increasing the horsemen's purses in Idaho. The Commission also states that simulcasting allows virtual racing to obtain wagering dollars from out-of-state and interstate wagering sources to help enhance the Idaho horsemen's purses and, the greater the horsemen's purses, the more stable and sound the live horse racing industry will be in Idaho. The rule, by amendments to definitions, provides for virtual horse racing. The Commission indicates that the effective date of the temporary rule is November 17, 2008.

The Commission states that negotiated rulemaking was not conducted but that the rule was developed with input from a committee comprised of representatives of all segments of the horse racing industry.

We have concerns relating to the constitutionality of this rule as well as the Commission's authority to broaden provisions to allow for virtual horse racing. The statute does not specifically provide for virtual horse racing and therefore the Commission would be, in essence, allowing for such racing by virtue of their interpretation of the statute pursuant to the rule. The Legislature will need to determine whether it considers the Commission's interpretation to include virtual racing reasonable.

4. IDAPA 11.04.13 - Rules Governing The Idaho State Racing Commission

The Idaho State Police (ISP), State Racing Commission, submits notice of temporary and proposed rule at IDAPA 11.04.13 - Rules Governing The Idaho State Racing Commission. According to Commission, this new chapter will provide clear and concise provisions relating to the Commission and conform more closely with the model rules of the Association of Racing Commissioners' International. The effective date of the temporary rule is November 12, 2008.

The Commission states that negotiated rulemaking was not conducted but that the rule was developed with input from a committee comprised of representatives of all segments of the horse racing industry.

We have no specific comments relating to the rule. The rule appears to be authorized by Sections 54-2506 and 54-2508, Idaho Code.

NOTICE OF RULEMAKING - TEMPORARY AND PROPOSED RULE

EFFECTIVE DATE: The effective date of the temporary rule is 11/17/2008.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed regular rulemaking procedures have been initiated. The action is authorized pursuant to Section(s) 54-2506 and 54-2508, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be held as follows:

Thursday - October 9, 2008 -- 6:30 pm – 7:00 pm

**Nampa Civic Center - Kasler Room
311 3rd Street South, Nampa, ID**

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Virtual Racing promotes the purpose of enhancing and protecting the live horse race industry in Idaho. It does this by increasing the proceeds paid to the horsemen's groups, which contributes to increasing the horsemen's purses in Idaho. In addition, simulcasting allows Virtual Racing to obtain wagering dollars from out-of-state and interstate wagering sources to help enhance the Idaho horsemen's purses. The greater the horsemen's purses, the more stable and sound the live horse racing industry will be in Idaho. Such innovations are needed in Idaho to make racing profitable enough to sustain its live racing industry.

Specifically, the following proposed rules changes are requested and amend the current definitions in IDAPA 11.04.02.010.

(NEW) 14. Horse Race. A contest authorized by the Racing Commission that is among horses, including virtual horses, using the pari-mutuel wagering system at any licensed race track.

(AMENDED) 15. Host or Host Association. The racing association conducting a horse race when it is authorized by the Racing Commission to simulcast its horse racing program. It may also be considered the sending track which means any track from which simulcast signals originate.

(NEW) 28. Virtual Horse. A computer-based, three dimensional graphical race horse, produced in a manner to replicate the characteristics of a living race horse.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section(s) 67-5226(1) c, Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons: Confers a benefit.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed or increased is justified and necessary to avoid immediate danger and the fee is described herein: There is no fee.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year:

There is no impact to the General Fund.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted. However, this rule was developed with input from a committee comprised of representatives of all segments of the horse racing industry.

Dennis Jackson
Executive Director
Idaho State Racing Commission
P.O. Box 700
Meridian, ID 83680-0700

Dear Mr. Jackson:

The germane subcommittees for administrative rules review of the Senate State Affairs Committee and the House of Representatives State Affairs Committee held a meeting on October 28, 2008 to review the Idaho State Racing Commission's temporary and proposed administrative rule relating to virtual horse racing contained in Docket No. 11-0402-0803 – Rules Governing Simulcasting.

Section 67-454, Idaho Code, provides that "(u)pon a finding of the same objection by a majority of the members of the subcommittee of each house voting separately, an objection to a rule shall be transmitted to the agency with a concise statement of the reasons for the objection...". Senators McKenzie, Jorgenson and Stennett, along with Representatives Loertscher and Shepherd voted to object to the temporary and proposed rule. Representative Anderson voted against the objection. The reasons for the objection were:

- Article III, Section 20 of the Idaho Constitution provides specific exceptions to the prohibition against gambling in the state, including an exception for "(p)ari-mutuel betting if conducted in conformity with enabling legislation." Agency rulemaking does not constitute "enabling legislation."
- Virtual horse racing is not permitted under current enabling legislation for pari-mutuel betting. Current law, when read in context, limits pari-mutuel betting to races involving live horses. Accordingly, the Commission does not have authority to adopt the rule.
- The issue of virtual horse racing deserves in-depth consideration from the Legislature as a whole.

Sincerely,

Administrative Rule Meeting
October 28, 2008
Idaho Racing Commission
IDAPA 11-04-02 – Rules Governing Simulcasting
Docket No. IDAPA 11-0402-0803
Room 204, Capitol Annex, Boise, Idaho

In attendance were Germane Joint Subcommittee members from the Senate State Affairs Subcommittee: Co-chair Senator Curt McKenzie and Senator Mike Jorgenson. Participating by telephone conference call was Senator Clint Stennett. Co-chair Representative Tom Loertscher from the House State Affairs Subcommittee was also in attendance at the meeting and Representative Eric Anderson and Representative Mary Lou Shepherd participated by telephone conference call. Legislative Services Office staff present were Katharine Gerrity and Brooke Murdoch.

Others in attendance were: Dennis Jackson and Mike Bosen, Idaho Racing Commission; Mike Gilmore, Idaho Attorney General's Office; Steve Bieri, Rod Nutter, Alan Horowitz and Sheila Schwager, Capitol Racing; Roger Seiber and Jerry Deckard, Capitol West; Tawnja Elison and Kathryn Mooney, Idaho Thoroughbred Association; Brie Koch, Governor's Office; Dave High, Coeur d' Alene Racing, Ltd; Bryan Fischer, Idaho Values Alliance; Nate Shelman, KBOI; Colby Cameron, Sullivan & Reberger; Dan Popkey, Idaho Statesman; Dennis Stevenson and Ed Hawley, Office of Administrative Rules; and John Miller, Associated Press.

The meeting was called to order at 2:00 p.m. by **Co-chair Senator McKenzie** who stated that the purpose of the meeting was to review a temporary and proposed rule by the Idaho Racing Commission, IDAPA 11-0402-0803, concerning virtual horse racing, to determine whether an objection to the rule would be made. **Senator McKenzie** went on to discuss some of the provisions of Section 67-454, Idaho Code.

Steve Bieri, owner of Capitol Racing, testified before the Subcommittees, providing them with his perspective of the Commission's authority and the proposed rule. He referenced the October 23rd report of Michael Kane, hearing officer for the public hearing that was held in regard to the rule. He noted that, as hearing officer, Mr. Kane determined that the Commission did act within its authority in promulgating the rule, and that the rule is constitutional. He also assured the Subcommittees that there was absolutely no intent to "do an end-run" around the Legislature as some have suggested. He indicated that all those concerned are fully aware that the Legislature is in complete control of the process. He went on to say that the timing of the promulgation of the rule was based on the loss of revenues in the industry. He said that due to the financial problems in the industry, purses will have to be cut. Based on that fact, he said that they want to bring additional

money in, particularly from outside the state of Idaho. **Mr. Bieri** added that he believes that those individuals who are against virtual horse racing have not had an opportunity to actually see what it entails and that once people become familiar with the technology, they are in favor of it. He added that he did not believe that virtual horse racing would constitute an expansion of gaming, that it is a highly regulated process and would, in Idaho, be controlled by the Racing Commission. He also told the Subcommittees that all four horsemen's groups in Idaho support virtual horse racing and submitted a joint letter to the Racing Commission expressing that support.

In questioning Mr. Bieri, **Senator McKenzie** noted that the hearing officer, in his analysis, indicated that the matter constitutes a policy question for the Legislature. He then asked Mr. Bieri whether he thought the Subcommittees are presented with a policy question as to whether they want to have virtual horse racing or whether they are simply presented with the question of whether the agency is acting within its authority. **Mr. Bieri** responded that he believes that it is clear that the action is constitutional in that the Idaho Constitution provides for pari-mutuel betting if conducted in conformity with enabling legislation and that the process they are going through satisfies that provision. He added that virtual horse racing is just another form of a race which is not meant to replace live racing but to supplement and enhance it.

Senator Jorgenson asked Mr. Bieri whether virtual horse racing is being conducted in any other states. **Mr. Bieri** responded that it is not but that it is being conducted in places like England, Australia and South Africa. He added that he owns a portion of the virtual racing company and that is why he can bring it to Idaho. He also said that, in his opinion, if Idaho doesn't allow it another state will and they will benefit from it. **Senator Jorgenson** then asked Mr. Bieri whether he has attempted to get any other state to allow it and **Mr. Bieri** responded that he has not made any formal application but that he has talked to some people in other states and has received mixed reactions. He added that people are hesitant until they see how virtual racing works. **Senator Jorgenson** continued by asking whether the revenue would go to the horsemen and whether any would go to the state. **Mr. Bieri** responded that they would anticipate the state participating in some way whereas at the present time, in terms of exporting signals in simulcast, the state does not. **Mr. Bieri** also said that a percentage has not been determined at this time. **Senator Jorgenson** also asked about the bona fides of the people that have created virtual horse racing. **Mr. Bieri** responded that he made an investment in the company and added that the Racing Commission will insist on the process being one with financial security, good communications and integrity in terms of the races.

Senator McKenzie then asked Mr. Bieri to explain how the software operates. **Mr. Bieri** responded that the virtual horses have attributes of real horses with over 5,000 virtual horses in the stable at this point. He also said that there is nothing that will indicate, at the start of a race, which horse will win and that you can't fix the race.

Senator Jorgenson asked Mr. Bieri to address the decision they made to proceed with a temporary rule rather than waiting for session to begin and going through the process at

that time. **Mr. Bieri** responded that the economy is in such a decline that they felt there was a need for revenue now.

Tawnja Elison, representing the Idaho Thoroughbred Association, was the next speaker to address the Subcommittees. She also commented on the fact that the four Idaho horsemen's groups are all in support of virtual horse racing. She added that she believes the law has to be brought up to a 21st century standard.

Representative Loertscher asked Ms. Elison what the horsemen have been told in terms of what they can expect financially. She indicated that they believe that in simulcast it would be equitable to live races; that they would use the same formula for distribution. She also said that there is no contract at this point and that they have not been given unreasonable expectations. **Mr. Bieri** also added that horsemen get 3.65 percent of the money wagered on simulcast and 9 percent on live races. He added that virtual horse racing would be handled like a live race. He said that they would anticipate anywhere from \$200 to \$2,000 a race but won't know until they start.

Sheila Schwager was the next speaker to address the members. Ms. Schwager is legal counsel for Capitol Racing. She referred the Subcommittee members to her letter to Mr. Bosen contained in the hearing officer materials which provides additional information relating to the details of virtual horse racing. She also reiterated a number of determinations made by the hearing officer relating to his finding of constitutionality and the Commission's authority.

Senator Jorgenson asked Ms. Schwager about her opinion as to the constitutionality of virtual horse racing in Idaho. **Ms. Schwager** responded that she believes it would be constitutional. He continued by asking whether it requires a leap of faith that virtual horses are real horses. **Ms. Schwager** said that the law provides for the simulcasting of races and they have provided for virtual horse racing by definition in the rule. **Senator Jorgenson** noted his concerns with the blending of real life and virtual reality.

Senator McKenzie asked Ms. Schwager about the limits of authority of the Commission and whether she thinks that the definition could be expanded to include any kind of race with any virtual competitor. She responded that the rulemaking authority of the Commission has the gatekeeper of the Governor's Office and then is subject to Legislative review.

Representative Shepherd noted that gambling (pari-mutuel betting) is only authorized if controlled by enabling legislation. She asked Ms. Schwager whether she believed there was controlling law. **Ms. Schwager** responded that the law allows the Racing Commission to adopt rules and that the Commission is providing for virtual horse racing by rule. She added that a virtual horse race, although innovative, is just another kind of simulcast race.

David High was the next speaker to address the Subcommittees as counsel for Coeur d'Alene Racing. He said that his clients, although interested in virtual horse racing as well,

believe that the matter should proceed through the legislative process rather than through rulemaking. He added that his primary concern is the language of the Idaho Constitution, specifically the requirement of “enabling legislation.”

Sen. McKenzie agreed that there clearly isn’t any legislation that covers virtual horse racing, but asked him about the argument that the Commission has broad authority to promulgate rules. **Mr. High** pointed to Mr. Gilmore’s Attorney General Opinion on the matter that states, under current statutes, virtual horse racing is not allowed. He went on to again discuss the meaning of “enabling legislation” in Section 20, Article III of the Idaho Constitution. He said that he believes that phrase is intended to make it difficult to broaden gaming. He acknowledged that the hearing officer reads it differently and found that “enabling legislation” is broader than simply statutes. **Mr. High** agreed in terms of the initiative process but said that he does not believe it would also cover rules. In so noting, he referred the Subcommittees to Section I, Article III of the Constitution. In that section, legislative power is defined as being vested in the Senate and House of Representatives and the term “legislation” does not encompass rules.

Mr. High went on to say that the relevant statutes include the terms “horse” and “race” and that these statutes go back to the 1960’s when virtual reality was not in existence. He added that any significant change to the statutes, like the addition of dogs and mules, has been accomplished with legislation, not rule.

Bryan Fisher of Idaho Values Alliance was the next speaker. He quoted from the Idaho Constitution in noting to the Subcommittees that gambling in Idaho is contrary to public policy. He stated that he thinks lawmakers recognize the fundamental danger to culture and society that gambling poses, in that it preys on weakness and is regressive, in that poorer families gamble more. He said that expansion of gambling can only be done through enabling legislation and reiterated that his objections were based on moral and constitutional concerns.

Representative Anderson indicated that he had not received certain correspondence from legislative members mentioned by Mr. Fisher. He said he hasn’t been contacted by anyone against virtual horse racing. **Senator Jorgenson** said that he also had not received the correspondence until he received his meeting packet. **Representative Anderson** said that his impression of the basis of the meeting was to determine whether the Commission has authority to allow virtual horse racing. He said he was concerned that the Subcommittees have delved into constitutional issues. **Representative Anderson** also added that he doesn’t like to base decisions for Idaho on whether other states have adopted certain practices.

Senator Jorgenson commented that, in his opinion, Mr. Bieri in no way attempted to do an end-run around the Legislature, and said those accusations are not the basis of the motion he was about to make. He added that he believes the Commission does not have authority to adopt the rule. He said that the whole topic deserves more consideration and should come directly from the Legislature. **Senator Jorgenson moved to reject the**

Commission's rule as presented. The motion was seconded by Representative Shepherd.

Representative Shepherd said that she realizes that this would be good for horse racing but doesn't think it should hastily be put in motion. She said that she doesn't view the matter as a moral issue, but strictly an issue of legality and gray area.

Senator McKenzie reiterated the motion to oppose the rule and explained the voting process to members. **Representative Anderson** inquired about a substitute motion relating to the matter going to the standing committees of the Legislature to afford a full and broader hearing. **Representative Loertscher** explained that no matter what the outcome of the motion, the matter will go to the full Legislature. He added that it is his understanding that if they make a recommendation to object to the rule, the agency could still proceed with the temporary rule if they choose to and will need to appear before the standing committees on the rule during session. **Representative Anderson** then proceeded to speak in opposition to the motion. He said that he believes that criteria is present to proceed with virtual horse racing and that the Commission's determination that it fits within constitutional criteria and authority are satisfied.

Representative Loertscher spoke in favor of the motion stating that as legislators, they enact legislation without knowing what will be available (technology) in the future. He said that they have had to enact laws over time to address technology advances. He doesn't see this issue as any different and he said he believes that enabling legislation is necessary in order to go forward.

Senator McKenzie also spoke in favor of the motion stating that the issue before them is not the issue of gambling itself. He said that he doesn't believe that is what the Subcommittees were called for. He said that it is not the policy decision of whether it is appropriate to expand betting or whether this is even an expansion. And in his mind, he said, it is not the actual operation of the gaming. He said that he doesn't think he is in a position to second-guess the Racing Commission or to defer his decision to the opinion of those legislators who oppose virtual horse racing. He said that he believes the issue before them is whether the Commission is acting within their authority – both constitutionally and statutorily. **Senator McKenzie** went on to say that he agrees with Mr. High's comments regarding the constitutional issue involving the phrase "enabling legislation." He said that he is of the opinion that enabling legislation is required to allow a particular form of pari-mutuel betting. He added that, to him, the issue is whether they have already granted that authority under current statutes. He noted Mr. Gilmore's analysis as to whether virtual horse racing would fall under the statutory definition of racing allowed under current statutes. He went on to say that he believes there is a fundamental difference and that they have to look at racing in the context of the whole statute where racing involves live horses. He added that when they have expanded from live horses (for example to dogs) they have done that by statute.

A roll call vote on the motion was taken with a majority of Subcommittee members from each house voting in favor of the motion. Senators voting in favor of the

motion included Senators McKenzie, Jorgenson and Stennett. Representatives voting in favor of the motion included Representative Loertscher and Shepherd. Representative Anderson voted against the motion.

The meeting was adjourned at 4:20 p.m.
