MEMORANDUM

TO: Rules Review Subcommittee of the Senate Health & Welfare Committee and the House Health & Welfare Committee

FROM: Research & Legislation Staff - Paige Alan Parker

DATE: December 5, 2007

SUBJECT: Department of Health and Welfare - IDAPA 16.07.17 - Alcohol and Substance Use Disorders Services (Docket No. 16-0717-0801) (Temporary and Proposed New Chapter and IDAPA 16.07.33 - Adult Mental Health Services (Docket No. 16-0733-0801)(Temporary and Proposed New Chapter)

By these Proposed and Temporary Rule dockets, the Department of Health and Welfare creates new chapter IDAPA 16.07.17 - Alcohol and Substance Use Disorders Services (Docket No. 16-0717-0801) and creates new chapter IDAPA 16.07.33 - Adult Mental Health Services (Docket No. 16-0733.0801) (hereinafter individually and collectively "proposed rule"). The Governor's justification for both temporary rule dockets is to confer a benefit. The temporary rule in both dockets becomes effective on January 1, 2008.

These two rule dockets will be presented to the 2008 Legislative Session for review as temporary rules, during which the Legislature will have the opportunity to continue or reject them as temporary rules. Since these dockets have not completed the proposed rule process, they will not be presented to the Legislature as pending rule dockets until the 2009 Legislative Session.

Both proposed rules are in response to Executive Order 2006-18, issued by Governor Risch on June 6, 2006, which reorganized the Department of Health and Welfare and created the Division of Behavioral Health as one of nine Department divisions.

Docket No. 16-0717-0801. The Department states that the Division of Behavioral Health is responsible for administering alcohol and substance use disorders services for adults and adolescents and that new IDAPA chapter 16.07.17 is needed to provide for oversight of alcohol and substance use disorder services. The primary purpose of the proposed rule is to provide a formal appeal process in rule for adults or adolescents seeking services from the Department.

The Department states that the proposed rule also defines the scope of voluntary alcohol and substance use disorders services and describes the eligibility criteria, application requirements, individualized treatment plan and selection of providers.

The Department states that this proposed rule is authorized by sections 39-311 and 56-1003, Idaho Code. Section 39-311, Idaho Code, mandates the Board of Health and Welfare to promulgate rules deemed necessary to carry out the provisions of the Alcohol and Intoxication Treatment Act. Section 39-302, Idaho Code, requires the Department to establish a comprehensive and coordinated program for the treatment of alcoholics, intoxicated persons and drug addicts. Section 56-1003, Idaho Code, provides broad powers and duties to the Department of Health and Welfare's Director, including the supervision and administration of services dealing with the problems of alcoholism, including the care and rehabilitation of persons suffering from alcoholism. Section 56-1003(3)(f), Idaho Code.

Docket No. 16-0733-0801. The Department states that the Division of Behavioral Health is also responsible for administering mental health services for adults and that new IDAPA chapter 16.07.33 is needed to provide oversight of such services. According to the Department, the proposed rule provides a formal appeal process in rule when adults seeking mental health services are denied such services by the Department. The Department states that the proposed rule also defines the scope of voluntary adult mental health services and describes the eligibility criteria, application requirements, individualized treatment plan and selection of providers.

The Department states that this proposed rule is authorized by sections 39-3133 and 56-1003(3)(c), Idaho Code. Section 39-2122, Idaho Code, requires the Director to make such other rules as are necessary and proper to carry out the purposes and intent of the Regional Mental Health Services Act. Section 56-1003(3)(c), Idaho Code, provides the Director the power and duty to supervise and administer mental health programs which shall include services for the evaluation, screening, custody and treatment of the mentally ill and those persons suffering from one or more mental defects.

According to the Department, no fee or charge is imposed and there is no impact to the General Fund by either proposed rule. According to the Department, negotiated rulemaking was not conducted on either proposed rule because the rulemaking was developed primarily to establish the benefit of appeal rights for individuals receiving alcohol and substance abuse disorders services and for adults receiving mental health services. The Department states that public hearings will be scheduled if requested in writing by 25 persons, a political subdivision or an agency not later than Wednesday, January 16, 2008. All written comments must be delivered to the Department on or before Wednesday, January 23, 2008

ANALYSIS

A. Docket No. 16-0717-0801.

The proposed rule Legal Authority (000), Title (001.01), Written Interpretations (002), Administrative Appeals (003), Office – Office Hours – Mailing Address – Street Address – Telephone Number – Internet Web Site (005), Confidentiality of Records and Public Records Requests (006) and Criminal History and Background Check Requirements (009) sections are standard. The Scope (section 001.02) of the proposed rule is to define the scope of voluntary services administered under the Department’s Division of Behavioral Health and to describe the eligibility criteria, application requirements, individualized treatment plan requirements, selection of providers and appeal process. The Scope section contains the caveat that the proposed rule is not intended and does not establish an entitlement for or to receive adult or adolescent alcohol or substance use disorder services and is not intended to be applicable to individuals ordered by the court to receive alcohol or substance use disorder services.

Incorporated by Reference (section 004) are the American Society of Addiction Medicine Patient Placement Criteria for the Treatment of Substance-Related Disorders, Second Edition - Revised (ASAM PPC-2R) and the American Psychiatric Association Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Text Revision (DSM-IV-TR). Both are available at the Department for public view.

There are thirty-three defined terms under section 010 of the proposed rule, and with the exception of “Department,” none of which are defined in either chapter 3, title 39 or chapter 10, title 56, Idaho Code. None of the defined terms are defined elsewhere in Idaho Code in a manner that would cause confusion. However, there are fourteen defined terms that are also defined in Docket No. 16-0733-0801. Most of these jointly defined terms have identical definitions or are defined in a program specific fashion so as to not cause confusion. However, there are wording differences in the terms “federal poverty guidelines” and “functional impairment” that do not appear to be program specific and thus may lead to confusion. The Division should strive to maintain consistency in its defined terms that are common across its various programs.

Under the proposed rule, adult and adolescent alcohol and substance disorders services may be accessed by eligible applicants through an application and request for an intake eligibility screening. Section 100. If the applicant meets the priority population and ASAM PPC-2R screening criteria, the applicant may be eligible for the Department’s services. “Priority populations” is defined in the proposed rule as “populations who receive services ahead of other persons and are determined yearly by the Department based on Federal regulations and input from the Interagency Committee on Substance Abuse Prevention and Treatment.” (This Interagency Committee was created in 2006 and its composition, duties and responsibilities are provided for at section 39-303, Idaho Code.) If the screening criteria are not met, the applicant will be referred to other appropriate community services.

The application must be completed over the telephone or in person. The intake eligibility screening must be directly related to the applicant’s substance dependence or substance-related

disorder and level of functioning and include the application, notice of privacy practice, fee determination and authorization for disclosure. Section 101.01. If found eligible for Department services following the screening, the applicant will either be placed on a waiting list or have an appointment for a full clinical assessment with a network treatment provider. Section 101.02.

Under section 102, Eligibility Determination, of the proposed rule, the total number of adults and adolescents who are eligible for its alcohol or substance use disorders services will be established by the Department in consultation with the Interagency Committee. In consultation with the Interagency Committee, the Department may limit or prioritize its services, define eligibility criteria and establish the number of persons eligible, based on such factors as court-ordered services, availability of funding, the degree of financial need, the degree of clinical need or other (undefined) factors. Section 102.01.

To be eligible for the Department's services, the applicant must be an adult (eighteen years or older) or adolescent (between ages 14 and 18) with family income at or below 175% of the federal poverty guidelines issued annually by the Department of Health and Human Services, an Idaho resident, a member of the priority population, meet DSM-IV-TR criteria for substance dependence or substance-related disorder, and meet specifications in each of the ASAM PPC-2R dimensions required for the recommended level of care. Section 102.02.

To be admitted to the program, there must be clinical evidence that provides a reasonable expectation that the applicant will benefit from the services. Section 102.02 [sic]. Not eligible for the services are applicants with epilepsy, mental retardation, dementia, a developmental disability, physical disability, mental illness or who is aged, unless the applicant meets primary DSM-IV-TR diagnostic criteria for substance abuse, substance dependence or substance related disorder and the specification in each of the ASAM PPC-2R dimensions required for the recommended level of care. Section 102.03 [sic].

Upon ten days written notice, the Department may reduce, limit, suspend or terminate eligibility for its services. Section 103.

Written notice will be provided to the applicant of its eligibility determination within two business days of receiving a completed intake eligibility screening and risk assessment for outpatient services and within one business day for social detoxification and residential treatment services. The written notice includes the applicant's name and identifying information, a statement of the decision, a concise statement of the reasons for the decision and the process for pursuing an administrative appeal. Section 104.01. If accepted, the applicant may accept or reject the Department's services, unless imposed by law or court order. Section 104.02. If determined to be not eligible, the applicant may reapply after six months or, upon a showing of a substantial change in circumstances, at any time. The Department will also refer the individual to an agency or department which provides the appropriate services if the individual is in need of such services. Section 104.03.

An individualized treatment plan, based on a biopsychosocial assessment of the client's needs and addressing the alcohol or substance disorders health affects on the client's major life areas, will be prepared by the Department's contracted treatment provider within 14 days of the eligibility determination. Section 200. The overall responsibility for development and implementation of the plan is assigned to a qualified professional staff member within the Department contracted network treatment provider program. ("Network treatment provider" is defined as a treatment provider who has facility approved through the Department and is contracted with the Department's Management Service Contractor.) The proposed rule sets forth the required contents of the plan. Section 200.01.

The client is allowed to choose from among the providers approved to provide services, unless within the criminal justice system and specific providers have been identified. The services must be within the ASAM PPC-2R level of care and based on the needs identified in the treatment plan. Section 200.02. Available services include early intervention, outpatient services, intensive outpatient services, residential social detoxification, medical detoxification, clinically managed low-intensity residential treatment, clinically managed medium intensity residential treatment and clinically managed high-intensity residential treatment. Section 200.03. Each of listed services is defined under section 010 of the proposed rule. Departmental services do not include experimental or investigational procedures, technologies and related services, treatment or services for epilepsy, mental retardation, dementia, developmental disability, physical disability, aged or infirm or any other services which are primarily recreational or diversional in nature. Section 200.04.

Individuals are responsible for paying for the Department's services, in accordance with the individual's ability to pay based on a sliding scale. A Fee Determination Form must be completed in writing or by telephone prior to the delivery of the services. Section 300.

B. Docket No. 16-0733-0801.

The proposed rule Legal Authority (000), Title (001.01), Written Interpretations (002), Administrative Appeals (003), Office – Office Hours – Mailing Address – Street Address – Telephone Number – Internet Web Site (005), Confidentiality of Records and Public Records Requests (006) and Criminal History and Background Check Requirements (009) sections are standard.

The Scope subsection (001.02) provides that the chapter defines the scope of voluntary adult mental health services administered under the Division of Behavioral Health and describes the eligibility criteria, application requirements, individualized treatment plan requirements and appeals process. The rule contains the caveat that it is not intended to, and does not, establish an entitlement for or to receive adult mental health services, nor is it intended to be applicable to individuals ordered by the court to receive mental health services.

The Scope subsection further provides that the priority population is adult individuals,

voluntarily seeking mental health services, who are residents of Idaho and have a primary diagnosis of serious and persistent mental illness, but that, pursuant to waiver, adult mental health services may be available to those who do not have a primary diagnosis of serious and persistent mental health. “Priority population” is not a defined term in this proposed rule. These substantive provisions are also stated in the body of the proposed rule.

The American Psychiatric Association: Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Text Revision (DSM-IV-TR) is incorporated by reference and is available for review at the Department. Section 004.

There are eighteen defined terms at section 010 of the proposed rule and, with the exception of “Department,” none of which are defined in either chapter 3 or chapter 31, title 39, Idaho Code. None of the defined terms are defined elsewhere in Idaho Code in a manner that would cause confusion. However, there are fourteen defined terms that are also defined in Docket No. 16-0717-0801. Most of these jointly defined terms have identical definitions or are defined in a program specific fashion so as to not cause confusion. However, there are wording differences in the terms “federal poverty guidelines” and “functional impairment” that do not appear to be program specific and thus may lead to confusion. The Division should strive to maintain consistency in its defined terms that are common across its various programs.

Adult mental health services may be accessed by eligible applicants through an application and request for initial intake eligibility assessment. Section 100. Completing the Application for Mental Health Services is required. Section 101.01

Meeting the eligibility criteria does not guarantee that the applicant obtains the Department’s mental health services. Section 102.01 of the proposed rule provides that the total number of adults who are eligible for its services will be established by the Department and that the Department, in its sole discretion, may limit or prioritize its services, define eligibility criteria or establish the number of persons eligible based upon such factors as court-ordered services, availability of funding, the degree of financial need, the degree of criminal need or other [unstated] factors. If an applicant does not meet the eligibility requirements, the applicant may be referred to other appropriate services. Section 101.01.

A qualified clinician is required to complete an intake eligibility assessment that is directly related to the applicant’s mental illness and level of functioning on the Department approved and specified forms. The intake eligibility assessment and supplemental psychiatric, psychological or other specialty evaluations and test must be dated, signed and retained in the applicant’s medical record. Section 101.02.

To be eligible for voluntary mental health services, an applicant must be an adult, Idaho resident and have either a primary diagnosis of SPMI or be determined eligible under the waiver provisions in section 400 of the proposed rule. Section 102.02. An applicant who has epilepsy, mental retardation, dementia, a developmental disability, physical disability or who is aged or

impaired by chronic alcoholism or drug abuse is not eligible, unless he has a primary diagnosis of SPMI or is determined eligible under the proposed rule's waiver provisions. Section 102.03.

The Department makes a determination of whether the applicant needs emergency services at the first visit and prior to making a final determination of eligibility. Section 104.01. "Emergency" is a defined term under the proposed rule. Section 010.09. If the Department determines that emergency services are clinically necessary, it will identify the emergency services that are consistent with the applicant's needs, arrange for provision of such services and document the services provided in the applicant's record. Section 104.02. Upon the Department's determination, immediate intervention, emergency or crisis services will be arranged immediately. Section 104.03.

The Department will provide written notice of eligibility to the applicant containing specified information within ten days of receiving a completed intake eligibility assessment. Section 105.01. An eligible applicant has the right to accept or reject the Department's services unless the services are imposed by law or court order. Section 105.02. If deemed ineligible, the applicant may reapply after six months or immediately upon a showing of a substantial material change in circumstances. Section 105.03.

The Department will prepare an individualized treatment plan within thirty days of the Department's eligibility determination for every client that addressed the mental health effects on the major life areas and is based on an assessment of the client's mental health needs. Section 200. The overall responsibility for development and implementation of the plan is assigned to a qualified professional staff member. The plan must include specified provisions. Section 200.01. Within five days after completing the plan, the clinical team will identify and select service providers most appropriate to the client's needs. The case manager is given the responsibility of contacting the identified providers to determine their ability to serve the client. Section 200.02.

Individuals receiving Department services are responsible for paying for the services according to the individual's ability to pay under an established sliding fee schedule. A Fee Determination Form must be completed prior to the delivery of services. Section 300.

The Department retains the discretion to waive the eligibility requirement that the applicant have a primary diagnosis of SPMI, based on funding, provider availability and the number of clients receiving its services. Section 400.01. Any such waiver does not establish a precedent. Section 400.02. Waiver actions and determinations are not subject to appeal and are not admissible in administrative hearing or proceedings under the Department's rules. Section 400.03.

SUMMARY

Contrary to the Department's representation, the primary purpose of the rulemaking in both dockets is not to provide a formal appeals process. Instead, the primary focus is on eligibility for these services. The Department's Docket No. 16-0717-0801 appears to be authorized under

sections 39-311 and 56-1003(3)(f), Idaho Code and the Department's Docket No 16-0733-0801 appears to be authorized under sections 39-3133 and 56-1003(3)(c), Idaho Code.

DOCKET NO. 16-0717-0801

NOTICE OF RULEMAKING - TEMPORARY & PROPOSED RULE

EFFECTIVE DATE: The effective date of the temporary rule is January 1, 2008.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed regular rulemaking procedures have been initiated. The action is authorized pursuant to Sections 39-311 and 56-1003, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than Wednesday, January 16, 2008.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

In accordance with Executive Order 2006-18, the Department created a new Division of Behavioral Health. This new division is responsible for administering alcohol and substance use disorders services for adults and adolescents. Currently, there is no chapter pertaining to the oversight of alcohol and substance use disorders services and this new chapter is needed to fill that void.

This rulemaking is primarily being done because there is no formal appeal process in rule for adults or adolescents seeking services from the Department. This rulemaking provides this appeal process benefit and outlines how to appeal a denial of services decision made by the Department. This chapter also defines the scope of voluntary alcohol and substance use disorders services and describes the eligibility criteria, application requirements, individualized treatment plan, and selection of providers under these rules.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate as this rulemaking confers a benefit.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed or increased is justified and necessary to avoid immediate danger and the fee is described herein: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year.

This rulemaking has no anticipated fiscal impact to the state general fund.

NEGOTIATED RULEMAKING: Pursuant to IDAPA 04.11.01.811, negotiated rulemaking was not conducted because this new chapter was developed primarily to establish the benefit of appeal rights for individuals receiving alcohol and substance use disorders services under these rules.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Bethany Gadzinski, Division of Behavioral Health, at (208) 334-5756.

Anyone may submit written comments regarding this proposed rulemaking. All written comments must be directed to the undersigned and must be delivered on or before Wednesday, January 23, 2008.
