MEMORANDUM

TO: Rules Review Subcommittee of the Senate Health & Welfare Committee and the House Health & Welfare Committee

FROM: Research & Legislation Staff - Paige Alan Parker

DATE: July 27, 2009

SUBJECT: Department of Health and Welfare - IDAPA 16.02.25 - Rules Governing Fees Charged by the State Laboratory (Docket No. 16-0225-0901) (Proposed Chapter Repeal); and Department of Health and Welfare - IDAPA 16.02.25 - Fees Charged by the State Laboratory (Docket No. 16-0225-0902) (Proposed Chapter Rewrite)

By these two Proposed Rule dockets, the Department of Health and Welfare proposes to repeal IDAPA 16.02.25 in its entirety (Docket No. 16-0225-0901) (hereinafter "chapter repeal") and replace it with a new IDAPA 16.02.25 (Docket No. 16-0225-0902)(hereinafter "chapter rewrite"). This chapter rewrite is stated to be the result of an internal audit in the Spring of 2008 that found that the definitions, tests and fees in the existing chapter are outdated.

According to the Department, the temporary and proposed rule is authorized pursuant to section 56-1003, Idaho Code. Section 56-1003(3)(b) grants the Department's Director, under rule adopted by him, the power and duty to supervise and administer laboratories and to supervise and administer standards of tests for environmental pollution, chemical analyses and communicable disease.

According to the Department, the chapter rewrite will result in increased fees related to over 200 different tests. The Department anticipates that these fee increases will result in an increase of receipts estimated to be \$130,000, which includes an estimated \$77,000 in environmental testing (private individuals, public water systems, Department of Environmental Quality and district health departments), \$43,000 in microbiology testing (private doctors, hospitals, county jails, juvenile detention centers and Medicaid for new refugees) and \$10,000 in virology testing (private doctors, hospitals, county jails and juvenile detention centers). The Department states that these increased fees will not have an impact on the General Fund.

According to the Department, negotiated rulemaking was not conducted because the rule is being rewritten in response to an internal audit. The Department states that public hearings will be scheduled if requested in writing by 25 persons, a political subdivision or an agency, not later than August 19, 2009. All written comments must be delivered to the Department on or before August 26, 2009.

ANALYSIS

The chapter rewrite, in addition to housekeeping matters, reflects a complete reorganization in fee classifications and general increases in fee amounts.

Sections 000 through 003, 005, 006 and 900 of the chapter rewrite are basic information required by the Department of Administration, including legal authority, title and scope, written interpretations [none], administrative appeals, office - office hours - mailing address - street address - internet website, confidentiality of records and public records requests and waiver of fees. These are basic housekeeping and do not represent substantive change or do not represent a substantive departure from the repealed chapter.

The Incorporation by Reference section 004 and the Definition section 010 represent significant change. There was no Incorporation by Reference section in the repealed chapter. Incorporated are the “Standard Test Methods for Determining Concentration in Water Samples” (2002), published by the American Society for Testing and Materials International; the “Bacteriological Analytical Manual” published by the U.S. Food and Drug Administration; a number of analytical test methods published by the U.S. Environmental Protection Agency; the “NIOSH Manual of Analytical Methods” (1994), published by the U.S. Department of Health and Human Services; and the “Standard Methods for the Examination of Water and Wastewater” (1998), published by the American Public Health Association.

Of the 13 terms defined in the repealed chapter, only two (“Department” and “Director”) are carried forward into the chapter rewrite. None of the eight newly defined terms are defined in relevant Idaho statute. Most of the newly defined terms are acronyms for the agencies and organizations designated in the Incorporation by Reference section. Only “clinical laboratory test” (“microbiological analysis for diagnosis of infectious disease affecting human health”) and “state health official” (“administrator of the Department’s Division of Public Health”) are substantive definitions.

The meat of the chapter rewrite is the testing fees. The fees in the repealed chapter have not been changed since the 1980's. The chapter rewrite reorganizes the fee categories and redesignates 143 old fee categories with 202 new fee categories. Due to this reorganization and redesignation, it is difficult to compare fees to determine which have been increased and by how much.

The fee sections in the repealed chapter were subject matter related: “fees for water

analyses,” “furnace technique tests,” “mercury and lead tests,” “lead,” “milk testing, except residual pesticides,” “miscellaneous testing,” “proficiency testing and quality control programs,” and “fees for pesticide analyses.” Under the chapter rewrite, the major fee sections are reduced to two functional types of testing: “fees for clinical laboratory tests” and “fees for environmental laboratory test.”

For the fee categories that can be tracked between the repealed chapter and the chapter rewrite, there appears to be more designated types of tests that are being performed in individual categories at an increased fee. For example, “herpes culture,” a miscellaneous test under the repealed chapter with a \$25.00 fee, now is reflected as “herpes simple type 1 & type 2, IGG antibody, EIA,” with a fee of \$35, and “herpes simple virus isolation,” with a fee of \$53, both classified as clinical laboratory tests. The test for “cyanide,” an individual water chemical test under the fees for water analysis section of the repealed chapter, had a fee of \$31.50 for each test. Under the chapter rewrite, there are four environmental laboratory cyanide tests, each with a \$33 fee: “cyanide, total, SM 4500, soil”; “cyanide, total SM 4500, water”; “cyanide, WAD, SM 4500, soil”; and “cyanide, WAD, SM 4500, water”.

SUMMARY

The Department’s chapter repeal and chapter rewrite appear to be authorized pursuant to section 56-1003(3)(b), Idaho Code.

NOTICE OF RULEMAKING - PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Section 56-1003, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than Wednesday, August 19, 2009.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

An internal Department audit of the Bureau of Laboratories in the Spring of 2008 found that definitions, tests, and fees in the lab fees rule chapter are outdated and need to be updated to reflect current practice.

In response to the audit, the current chapter of rules is being completely rewritten. The current chapter is being repealed in this Bulletin under Docket No. 16-0225-0901.

The rewrite of the rules adds the standard sections required by the Office of Administrative Rules (OAR), updates chapter definitions, updates the list of laboratory tests offered by the Bureau of Laboratories and their respective fees, as well as reorganizes the chapter and revises the language to reflect the Department's plain language standards.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: The fees for the laboratory tests performed by the Bureau of Laboratories are being increased. There are over 200 different tests whose fees range from \$6 to \$373. See below for fiscal impact.

FISCAL IMPACT: The following is a specific description, if applicable, of any fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year:

The Bureau's calculations based on State Fiscal Year 2008 testing levels indicate the change in fees will result in an increase of receipts estimated at \$130,000:

1. \$77,000 in Environmental - fees mainly billed to private individuals, public water systems, the Department of Environment Quality (DEQ), and the district health departments.
2. \$43,000 in Microbiology - fees mainly billed to private doctors, hospitals, county jails, and juvenile detention centers. \$5,900 is estimated to come from Medicaid based on current reimbursement rates for new refugee parasite testing.
3. \$10,000 in Virology - fees mainly billed to private doctors, hospitals, county jails, and juvenile detention centers.

The increase in fees will not have an impact on the state general fund for the state laboratories, but should more fully cover the actual costs of the tests. Currently, the receipts appropriation for the state laboratories is sufficient to cover this increase.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220, Idaho Code, negotiated rulemaking was not conducted because the chapter is being rewritten in response to the findings of an internal audit.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the proposed rule, contact Tamara Hogg at (208) 334-2235 x262.

Anyone may submit written comments regarding this proposed rulemaking. All written comments must be directed to the undersigned and must be delivered on or before Wednesday, August 26, 2009.
