

## **STATEMENT OF PURPOSE**

### **RS18219**

These amendments would eliminate the "pass-through" cost of examinations for licenses and certifications issued by the Board of Professional Engineers and Professional Land Surveyors. Applicants would pay an application review fee to the Board, and if assigned to the examination, would pay a separate examination fee to the entity designated by the Board as the examination administrator. This will eliminate the uncertainty of budgeting expenses for examinees, the number of which varies from year-to-year.

### **FISCAL NOTE**

This legislation will eliminate the need to appropriate approximately \$70,000 in Operating Expenses which will be paid directly by the applicants rather than by the Board.
