

## **STATEMENT OF PURPOSE**

### **RS18673**

These changes to Idaho Code remove the main impediment to individual shippers and corporations outside of Idaho to register their trailers in Idaho. Current Idaho Code requires those outside of Idaho to re-title their trailers and again pay sales tax. Paying sales tax twice (once in their own state and then again in Idaho) has been a huge roadblock to bringing this business to Idaho

### **FISCAL NOTE**

There are approximately 5.6 million trailers in the U.S. At the current registration rates for a permanent plate, this allows Idaho to sell registrations and plates to compete for the \$627,000,000.00 available.
