

## **STATEMENT OF PURPOSE**

### **RS18697**

This legislation amends Idaho Code 40-2301 by providing additional agents or employees of the highway district to conduct right-of-way surveys and/or set monuments. Idaho Code currently allows surveyors this ability, but does not allow for environmental assessments, relocation assessments, or appraisers.

### **FISCAL NOTE**

There is no fiscal impact to the State. Highway Districts could realize some cost savings.
