41 appropriate registration fee shall be determined as follows:

43 appropriate mileage column shall be determined by the total miles an owner operated a
44 fleet of vehicles on roads and highways in the state, county, city and highway district
45 systems in Idaho and in all other jurisdictions in the preceding year, as defined in section
46 49-117, Idaho Code, and by the maximum gross weight of each vehicle within a fleet.

(b) If the owner registers vehicles under the international registration plan and determines that the average international registration plan fleet miles, calculated by dividing the total IRP fleet miles in all jurisdictions by the number of registered vehicles, is less than fifty thousand one (50,001) miles, the owner may apply to the department for refund of a portion of the registration fees paid, consistent with the fee schedules set forth in this section. The department shall provide an application for the refund. An owner making application for refund under this section shall be subject to auditing as provided in section 49-439, Idaho Code.

(c) If the owner is not registering vehicles under the international registration plan, the appropriate mileage column shall be determined by the total miles the owner operated each of the vehicles to be registered on roads and highways in the state, county, city and highway district systems in Idaho in the preceding year and by the maximum gross weight of each vehicle.
