

STATEMENT OF PURPOSE

RS18824C1

This additional language allows the Department of Transportation to negotiate for and create special trailer or semi-trailer Idaho North American permanent plates for the shipping industry to put on their shipping trailers in the US and Canada.

FISCAL NOTE

There are approx. 5.6 million trailers in the US. At the current registration rates for a permanent plate, this allows Idaho to sell registrations and plates to compete for the \$1,000,000,000.00 available in the North American Market (currently the US and Canada).
