40 to read as follows:

1 33-1004E. DISTRICT'S SALARY-BASED APPORTIONMENT. Each district shall be
2 entitled to a salary-based apportionment calculated as provided in this section.

3 1. To determine the apportionment for instructional staff, first determine the district av-
4 erage experience and education index by placing all eligible district certificated instructional
5 employees on the statewide index provided in section 33-1004A, Idaho Code. The resulting
6 average is the district index. Districts with an index above the state average index shall re-
7 ceive their actual index but not more than the state average plus .03 for the 1994-95 school
8 year, and shall receive their actual index but not more than the state average plus .06 for the
9 1995-96 school year, and thereafter shall receive their actual district index. The district instruc-
10 tional staff index shall be multiplied by the instructional base salary of ~~\$25,231~~ \$24,567. The
11 amount so determined shall be multiplied by the district staff allowance for instructional staff
12 determined as provided in section 33-1004(2), Idaho Code. The instructional salary allocation
13 shall be further increased by the amount necessary for each full-time equivalent instructional
14 staff member placed on the experience and education index to be allocated at least the mini-
15 mum salary mandated by this section. Full-time instructional staff salaries shall be determined
16 from a salary schedule developed by each district and submitted to the state department of ed-
17 ucation. No full-time instructional staff member shall be paid less than ~~\$31,750~~ \$30,915. If
18 an instructional staff member has been certified by the national board for professional teaching
19 standards, the staff member shall be designated as a master teacher and receive \$2,000 per year
20 for five (5) years. The instructional salary shall be increased by \$2,000 for each master teacher.
21 The resulting amount is the district's salary-based apportionment for instructional staff. For
22 purposes of this section, teachers qualifying for the salary increase as master teacher shall be
23 those who have been recognized as national board certified teachers as of July 1 of each year.

24 2. To determine the apportionment for district administrative staff, first determine the dis-
25 trict average experience and education index by placing all eligible certificated administrative
26 employees on the statewide index provided in section 33-1004A, Idaho Code. The resulting
27 average is the district index. Districts with an index above the state average index shall receive
28 their actual index but not more than the state average plus .03 for the school year 1994-95,
29 and shall receive their actual index but not more than the state average index plus .06 for the
30 1995-96 school year, and thereafter shall receive their actual district index. The district admin-
31 istrative staff index shall be multiplied by the base salary of \$36,532. The amount so deter-
32 mined shall be multiplied by the district staff allowance for administrative staff determined as
33 provided in section 33-1004(3), Idaho Code. The resulting amount is the district's salary-based
34 apportionment for administrative staff.

35 3. To determine the apportionment for classified staff, multiply \$20,376 by the district
36 classified staff allowance determined as provided in section 33-1004(4), Idaho Code. The
37 amount so determined is the district's apportionment for classified staff.

38 4. The district's salary-based apportionment shall be the sum of the apportionments cal-
39 culated in subsections 1., 2. and 3., of this section, plus the benefit apportionment as provided
40 in section 33-1004F, Idaho Code.
