6 33-1004E. DISTRICT'S SALARY-BASED APPORTIONMENT. Each district shall be
7 entitled to a salary-based apportionment calculated as provided in this section.

8 1. To determine the apportionment for instructional staff, first determine the district av-
9 erage experience and education index by placing all eligible district certificated instructional
10 employees on the statewide index provided in section 33-1004A, Idaho Code. The resulting
11 average is the district index. Districts with an index above the state average index shall receive
12 their actual index but not more than the state average plus .03 for the 1994-95 school year, and
13 shall receive their actual index but not more than the state average plus .06 for the 1995-96
14 school year, and thereafter shall receive their actual district index. The district instructional
15 staff index shall be multiplied by the instructional base salary of \$25,231. The amount so de-
16 termined shall be multiplied by the district staff allowance for instructional staff determined as
17 provided in section 33-1004(2), Idaho Code. The instructional salary allocation shall be fur-
18 ther increased by the amount necessary for each full-time equivalent instructional staff member
19 placed on the experience and education index to be allocated at least the minimum salary man-
20 dated by this section. Full-time instructional staff salaries shall be determined from a salary
21 schedule developed by each district and submitted to the state department of education. No
22 full-time instructional staff member shall be paid less than \$31,750. If an instructional staff
23 member has been certified by the national board for professional teaching standards, the staff
24 member shall be designated as a master teacher and receive \$2,000 per year for five (5) years.
25 The instructional salary shall be increased by \$2,000 for each master teacher. The resulting
26 amount is the district's salary-based apportionment for instructional staff. For purposes of this
27 section, teachers qualifying for the salary increase as master teacher shall be those who have
28 been recognized as national board certified teachers as of July 1 of each year.

29 2. To determine the apportionment for district administrative staff, first determine the dis-
30 trict average experience and education index by placing all eligible certificated administrative
31 employees on the statewide index provided in section 33-1004A, Idaho Code. The resulting
32 average is the district index. Districts with an index above the state average index shall receive
33 their actual index but not more than the state average plus .03 for the school year 1994-95,
34 and shall receive their actual index but not more than the state average index plus .06 for the
35 1995-96 school year, and thereafter shall receive their actual district index. The district admin-
36 istrative staff index shall be multiplied by the base salary of \$36,532. The amount so deter-
37 mined shall be multiplied by the district staff allowance for administrative staff determined as
38 provided in section 33-1004(3), Idaho Code. The resulting amount is the district's salary-based
39 apportionment for administrative staff.

40 3. To determine the apportionment for classified staff, multiply ~~\$20,376~~ \$19,840 by the
41 district classified staff allowance determined as provided in section 33-1004(4), Idaho Code.
42 The amount so determined is the district's apportionment for classified staff.

1 4. The district's salary-based apportionment shall be the sum of the apportionments cal-
2 culated in subsections 1., 2. and 3., of this section, plus the benefit apportionment as provided
3 in section 33-1004F, Idaho Code.
