

STATEMENT OF PURPOSE

RS18249

This proposed legislation seeks to delete Section 54-1119, Idaho Code. Confusion has arisen in the past about whether this section was intended to give the Department authority to regulate the funeral home industry which is not within the Department's expertise or historical responsibility but does reside with the Board of Morticians. Other Department authorities exist over the transport and disposition of dead human bodies and communicable diseases.

FISCAL NOTE

This legislation will have no fiscal impact.
