31 the jurisdiction of the department except by the latter's permission, except where the duly
32 elected officials of an incorporated city have established speed limits lower than those set by
33 the department on the portion of state highways, excluding controlled-access and interstate
34 highways, that pass through residential, urban or business districts within the jurisdiction of the
35 incorporated city. The placement and maintenance of such a traffic-control device by a local
36 authority shall be made according to the board's manual and specifications for a uniform system
37 of traffic-control devices.

2 or in compliance with law, and that limit shall be effective when posted upon appropriate
3 fixed or variable signs, except in cases where the duly elected officials of an incorporated

14 directing vehicular traffic approaching the crossing to come to a full stop prior to entering the
15 crossing at all railroad crossings where electric or mechanical warning signals do not exist.
16 Placement of these stop signs shall be mandatory except when in the determination of public
17 highway agencies the existence of stop signs at a given crossing would constitute a greater
18 hazard than their absence based on a recognized engineering study.

19 Nothing in this subsection shall be construed as granting immunity to any railroad
20 company as to liability, if any, for an accident which might occur at a crossing where stop signs
21 are erected and in place, but liability, if any, shall be determined as provided by law. Liability
22 on the part of governmental authorities on account of absence of any stop sign at a crossing
23 shall be determined as provided by law.

24 (26) The department and local authorities are authorized to determine those portions of
25 any highway under their respective jurisdictions where overtaking and passing or driving on
26 the left side of the roadway would be especially hazardous and may by appropriate signs or
27 markings on the roadway indicate the beginning and end of those zones and when signs or
28 markings are in place and clearly visible to an ordinarily observant person, every driver of a
29 vehicle shall obey those directions.

30 (27) The department and local authorities in their respective jurisdictions may in their
31 discretion issue special permits authorizing the operation upon a highway of traction engines or
32 tractors having movable tracks with transverse corrugations upon the periphery of the movable
33 tracks or farm tractors or other farm machinery, the operation of which upon a highway would
34 otherwise be prohibited under this title or title 40, Idaho Code.

35 (28) The department and local highway authorities within their respective jurisdictions
36 may place official traffic-control devices prohibiting, limiting or restricting the stopping,
37 standing or parking of vehicles on any highway where such stopping, standing or parking is
38 dangerous to those using the highway or where the stopping, standing or parking of vehicles
39 unduly interferes with the free movement of traffic thereon.

40 (29) On any informational material printed after July 1, 1995, by or at the order of
41 the department and distributed to counties, school districts or individuals for the purpose of
42 assisting a person to successfully pass a driver's license test, the department shall include
