

IN THE SENATE

SENATE BILL NO. 1132

BY STATE AFFAIRS COMMITTEE

AN ACT

1 RELATING TO EDUCATION, SCHOOL DISTRICTS AND PUBLIC SCHOOL BUILDINGS;
 2 TO PROVIDE LEGISLATIVE INTENT; AMENDING CHAPTER 3, TITLE 33,
 3 IDAHO CODE, BY THE ADDITION OF A NEW SECTION 33-356, IDAHO
 4 CODE, TO PROVIDE FOR SCHOOL BUILDING DESIGN AND ENERGY
 5 EFFICIENCY, TO PROVIDE THAT SCHOOL DISTRICTS MAY SEEK TO QUALIFY
 6 FOR REDUCTIONS IN BUILDING REPLACEMENT VALUE CALCULATIONS
 7 FOR CERTAIN BUILDINGS, TO PROVIDE FOR THE USE OF INTEGRATED
 8 DESIGN PRACTICES AND FUNDAMENTAL COMMISSIONING IN THE
 9 DESIGN AND CONSTRUCTION OF CERTAIN BUILDINGS, TO PROVIDE
 10 FOR AN OPTIMIZATION REVIEW OF QUALIFYING BUILDINGS, TO PROVIDE
 11 DEFINITIONS, TO DIRECT THE ADMINISTRATOR OF THE DIVISION OF
 12 BUILDING SAFETY TO PROVIDE CERTAIN ASSISTANCE, TO COMPILE AND
 13 MAKE AVAILABLE A LIST OF CERTAIN COMMISSIONING AGENTS AND TO
 14 ENSURE THAT SUCH AGENTS ARE CERTIFIED, TO PROVIDE FOR RULES
 15 AND TO DIRECT THE ADMINISTRATOR OF THE DIVISION OF BUILDING
 16 SAFETY TO PROVIDE CERTAIN CERTIFICATIONS TO THE STATE DEPARTMENT
 17 OF EDUCATION; AMENDING SECTION 33-1019, IDAHO CODE, TO EXEMPT
 18 CERTAIN SQUARE FOOTAGE OF CERTAIN PUBLIC SCHOOL BUILDINGS FROM
 19 REPLACEMENT VALUE CALCULATION, TO PROVIDE THAT THE AMOUNT OF
 20 RELIEF PROVIDED TO ANY SCHOOL DISTRICT SHALL NOT EXCEED THE
 21 AMOUNT PROVIDED PURSUANT TO A CERTAIN VALUE INDEX, TO PROVIDE
 22 PROVISIONS RELATING TO FORGIVENESS OF CERTAIN REQUIREMENTS;
 23 TO PROVIDE A CORRECT CODE REFERENCE AND TO MAKE TECHNICAL
 24 CORRECTIONS; AND TO PROVIDE FOR A REPORT.
 25

26 Be It Enacted by the Legislature of the State of Idaho:

27 SECTION 1. LEGISLATIVE INTENT. It is the intent of the Legislature that:

28 (1) Every dollar spent on energy costs in an Idaho public school is a dollar that is
 29 not spent in the direct education of students in the classroom. As energy costs increase, the
 30 diversion of funding away from the classroom will accelerate. The state has a primary interest
 31 in minimizing K-12 public school building energy costs since funding for energy comes directly
 32 from the state General Fund.

33 (2) School districts recognize that funding will always be limited and that efficient use
 34 of every dollar is vital to providing the highest possible level of educational services. It is
 35 apparent that designing and constructing more energy efficient buildings accrue cumulative
 36 benefits to both the state and to the school district. This is because any energy efficiency
 37 built into a new school building will save money each and every year of operation for the life
 38 of that school building. Small gains in energy efficiency result in large payoffs over the life of
 39 operations of a building.

1 (3) This act provides an incentive for school districts to use certain design and
 2 construction processes for constructing high quality school buildings. Using two processes,
 3 integrated design and fundamental commissioning, will result in efficient design and
 4 construction implementation of higher performance new public school buildings. Using this
 5 design and construction process, it is the intent of this act to make energy efficiency a priority
 6 for our school districts in the design and construction of new public school buildings.

7 SECTION 2. That Chapter 3, Title 33, Idaho Code, be, and the same is hereby amended
 8 by the addition thereto of a NEW SECTION, to be known and designated as Section 33-356,
 9 Idaho Code, and to read as follows:

10 33-356. SCHOOL BUILDING DESIGN AND ENERGY EFFICIENCY.

11 (1) (a) School districts may seek to qualify for a reduction in building replacement value
 12 calculation for qualified, newly constructed public school buildings pursuant to section
 13 33-1019(4), Idaho Code.

14 (b) Each school district that seeks to qualify a newly constructed building for the
 15 building replacement value calculation provided for in section 33-1019(4), Idaho Code,
 16 shall use integrated design practices and fundamental commissioning in the design and
 17 construction of such building.

18 (c) Following the first year of operations of a building that was certified in accordance
 19 with the provisions of subsection (5)(a) of this section, the germane school district
 20 shall perform or cause to be performed an annual optimization review of the qualifying
 21 building. Such annual optimization review shall be performed in a manner that is
 22 consistent with rules promulgated pursuant to this section. Such school district shall
 23 thereafter perform or cause to be performed an annual optimization review each year it
 24 seeks to qualify such building for the building replacement value calculation provided in
 25 section 33-1019(4), Idaho Code.

26 (2) For purposes of this section, the following terms shall have the following meanings:

27 (a) "Fundamental commissioning" means the use of a third party to review building
 28 design, building system specifications and to specify and monitor preoccupancy system
 29 testing to ensure functional integration of specified systems and functional operation of
 30 systems at the completion of a project.

31 (b) "Integrated design" means a process to develop consensus among the project team
 32 and owner as to the energy savings and building performance goals of the project and to
 33 identify design strategies to achieve those goals, including documentation strategies for
 34 design decisions to ensure accurate implementation of design through construction.

35 (3) It shall be the duty and responsibility of the administrator of the division of
 36 building safety to provide assistance to school districts to ensure school districts can access the
 37 technical and educational support needed to implement the processes of integrated design and
 38 fundamental commissioning. It shall further be the duty and responsibility of the administrator
 39 of the division of building safety to compile and cause to be made available to school districts
 40 a list of all third party building commissioning agents in Idaho and contiguous states. The
 41 administrator shall ensure that all commissioning agents that appear on such list are certified
 42 by the building commissioning association or other similar certifying entity. The administrator
 43 shall ensure that such list is updated annually.

44 (4) The administrator of the division of building safety is hereby authorized and
 45 directed to promulgate rules in accordance with the provisions of chapter 52, title 67, Idaho

Code, that provide the guidance, education and technical information necessary for school districts to implement the processes of integrated design and fundamental commissioning. The administrator is authorized to expand upon the terms defined in subsection (2) of this section, and to provide additional definitions as needed. In addition, the administrator shall promulgate rules governing annual optimization review and evaluation of germane building systems to ensure optimal performance of such systems and maximum energy savings and building performance. Such rules shall include, but not be limited to, a definition for the minimum scope of work required for annual optimization.

(5) (a) The administrator of the division of building safety shall certify to the state department of education when a building has qualified for school building replacement value calculation exclusions as provided for in section 33-1019(4), Idaho Code. As part of such certification, the administrator shall state specifically the school building(s) and the square footage thereof that shall be excluded from the school building replacement value calculations.

(b) Following the first year of operations of a building that was certified in accordance with the provisions of subsection (5)(a) of this section, the administrator of the division of building safety shall certify to the state department of education when such building has undergone an annual optimization review as provided in subsection (1)(c) of this section. Such certification shall ensure that the qualifying building meets or exceeds the requirements of annual optimization review rules promulgated pursuant to subsection (4) of this section.

SECTION 3. That Section 33-1019, Idaho Code, be, and the same is hereby amended to read as follows:

33-1019. ALLOCATION FOR SCHOOL BUILDING MAINTENANCE REQUIRED. (1) School districts shall annually allocate moneys for school building maintenance from any source available to the district equal to at least two percent (2%) of the replacement value of school buildings, less the receipt of state funds as provided in this section. Any school district expending more than four percent (4%) of the replacement value of school buildings for school building maintenance in any single fiscal year, beginning with the expenditures of fiscal year 2005, may apply the excess as a credit against the two percent (2%) requirement of this section until such credit is depleted or fifteen (15) years have expired. The state shall annually provide funds to be allocated for school building maintenance as follows:

(a) Divide one (1) by the school district's value index for the fiscal year, as calculated pursuant to section 33-906B, Idaho Code; and

(b) Multiply the result by one-half of one percent (0.5%) of the replacement value of school buildings.

(c) For purposes of the calculation in this subsection (1), public charter schools shall be assigned a value index of one (1).

(2) State funds shall be appropriated through the educational support program/division of facilities, and disbursed from the school district building account. The order of funding sources used to meet the state funding requirements of this section shall be as follows:

(a) State lottery funds distributed pursuant to section 33-905(2), Idaho Code;

(b) If state lottery funds are insufficient to meet the state funding requirements of this section, then other state funds available pursuant to section 33-905(3), Idaho Code, shall be utilized; and

1 (c) If the funds in paragraphs (a) and (b) of this subsection (2) are insufficient to meet
 2 the state funding requirements of this section, then funds available pursuant to section
 3 33-1018B, Idaho Code, shall be utilized.

4 (3) Moneys allocated for school building maintenance shall be used exclusively for the
 5 maintenance and repair of school buildings or any serious or imminent safety hazard on the
 6 property of said school buildings as identified pursuant to chapter 80, title 39, Idaho Code, and
 7 shall be utilized, first, to abate serious or imminent safety hazards, as identified pursuant to
 8 chapter 80, title 39, Idaho Code. Unexpended moneys in a school district's school building
 9 maintenance allocation shall be carried over from year to year, and shall remain allocated
 10 for the purposes specified in this subsection (3). The replacement value of school buildings
 11 shall be determined by multiplying the number of square feet of building floor space in school
 12 buildings by eighty-one dollars and forty-five cents (\$81.45). Notwithstanding the definition
 13 in subsection (48) of this section, school buildings that are less than one (1) year old on
 14 the first day of school shall not be used in the replacement value calculation. The joint
 15 finance-appropriations committee shall annually review the replacement value per square foot
 16 when setting appropriations for the educational support program, and may make adjustments
 17 to this figure as necessary.

18 (4) For school buildings first occupied between July 1, 2009, through September 30,
 19 2019, regarding the replacement value calculation that school districts are directed to use to
 20 determine the amount of moneys such districts shall allocate for school building maintenance
 21 as directed by subsection (1) of this section, a portion of the square footage of school buildings
 22 first occupied on or after July 1, 2009, and constructed pursuant to the provisions of section
 23 33-356, Idaho Code, shall not be used in the replacement value calculation, based on the
 24 following schedule:

25 (a) For school buildings at least one (1) year old but less than two (2) years old on the
 26 first day of school, exclude one hundred percent (100%) of the square footage;

27 (b) For school buildings at least two (2) years old but less than three (3) years old on the
 28 first day of school, exclude eighty percent (80%) of the square footage;

29 (c) For school buildings at least three (3) years old but less than four (4) years old on the
 30 first day of school, exclude sixty percent (60%) of the square footage;

31 (d) For school buildings at least four (4) years old but less than five (5) years old on the
 32 first day of school, exclude forty percent (40%) of the square footage; and

33 (e) For school buildings at least five (5) years old but less than six (6) years old on the
 34 first day of school, exclude twenty percent (20%) of the square footage.

35 (5) The amount of relief provided to any school district pursuant to subsection (4) of this
 36 section shall not exceed the amount that would be provided if the school district had a value
 37 index of one (1).

38 (6) School districts shall submit the following to the state department of education by not
 39 later than December 1:

40 (a) The number of square feet of school building floor space; and

41 (b) The funds and fund sources allocated for school building maintenance and any
 42 unexpended allocations carried forward from prior fiscal years; and

43 (c) The projects on which moneys from the school district's school building maintenance
 44 allocation were expended, and the amount and categories of expenditures; and

45 (d) The planned uses of the school district's school building maintenance allocation.

1 The state department of education shall transmit a summary of such reports to the legislature by
2 not later than January 15 of the following year.

3 (7) If a school district that is participating in the relief provided for in subsection (4)
4 of this section is forgiven the requirement to allocate the school district portion of the moneys
5 for the two percent (2%) of building replacement value for building maintenance provided in
6 subsection (1) of this section, then once the requirements of subsection (1) of this section are
7 reinstated, the provisions of subsection (4) of this section shall recommence from the time the
8 forgiveness took effect.

9 (48) For the purposes of this section:

10 (a) "Annually" means each fiscal year.

11 (b) "School building" means buildings that are owned by the school district or leased
12 by the school district through a lease-purchase agreement and are regularly occupied by
13 students.

14 (bc) "School district" means a school district or public charter school.

15 (c) ~~"Annually" means each fiscal year.~~

16 SECTION 4. STATE DEPARTMENT OF EDUCATION – REPORT. On or before
17 July 1, 2018, the State Department of Education shall submit a report to the State Board of
18 Education and the chairmen of the following legislative committees: Senate State Affairs;
19 House Environment, Energy and Technology; Senate and House Education; and the Energy,
20 Environment and Technology Interim Committee. Such report shall detail the extent to which
21 public school districts have participated, implemented and benefited from the provisions of this
22 act.
