

STATEMENT OF PURPOSE

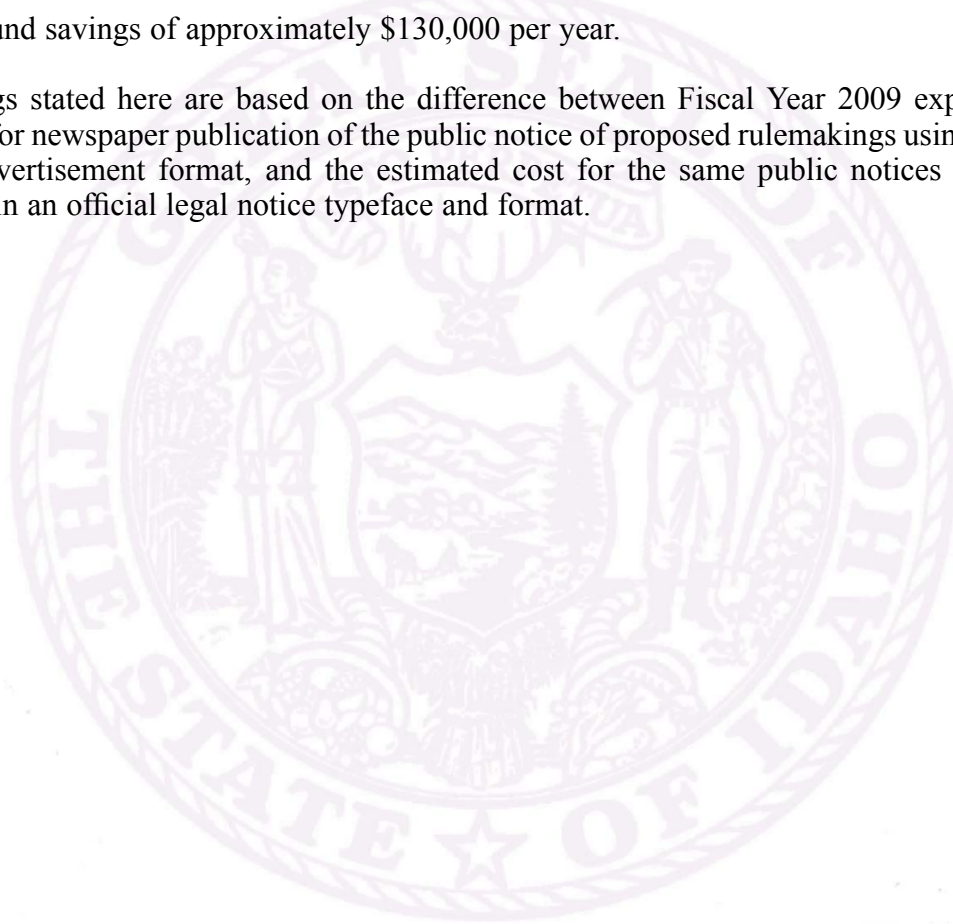

RS19159C1

This legislation amends the Idaho Administrative Procedure Act, Section 67-5221, Idaho Code, to no longer require that the public notice of proposed rulemakings be in the current specified typeface and format (used for newspaper display advertisements), but instead will require public notice of rulemaking to be in an official legal notice typeface and format.

FISCAL NOTE

General Fund savings of approximately \$130,000 per year.

The savings stated here are based on the difference between Fiscal Year 2009 expenditures of \$221,400 for newspaper publication of the public notice of proposed rulemakings using the current display advertisement format, and the estimated cost for the same public notices if they were published in an official legal notice typeface and format.
