

STATEMENT OF PURPOSE

RS19337

This bill amends current code to provide provisions relating to resident college tuition for veterans of the Armed Forces of the United States and for families of those members. It enables those members leaving the service to pay resident tuition rates if they relocate here to Idaho for post service education. Attracting these service members, that will be using their GI bill benefits, will increase our student population and strengthen our work force.

FISCAL NOTE

Used as a sales tool for Idaho Universities and Colleges could produce an overall increase in tuition dollars received with an increased student population.
