

STATEMENT OF PURPOSE

RS19303

This bill will clarify that PERSI members on disability retirement can attempt to return to work and, if unsuccessful, that they can resume the disability retirement if certain requirements are met. These requirements include giving PERSIs executive director advance written notice of the return to work; terminating the attempted return to work within 150 days from the date of the notice; and providing medical records and/or submitting to a medical exam, at the members expense, if requested to do so by PERSIs board. If the PERSI board determines that the member could not successfully return to work because of the same disability on which his/her original disability retirement was based, the disability retirement will resume.
