

STATEMENT OF PURPOSE

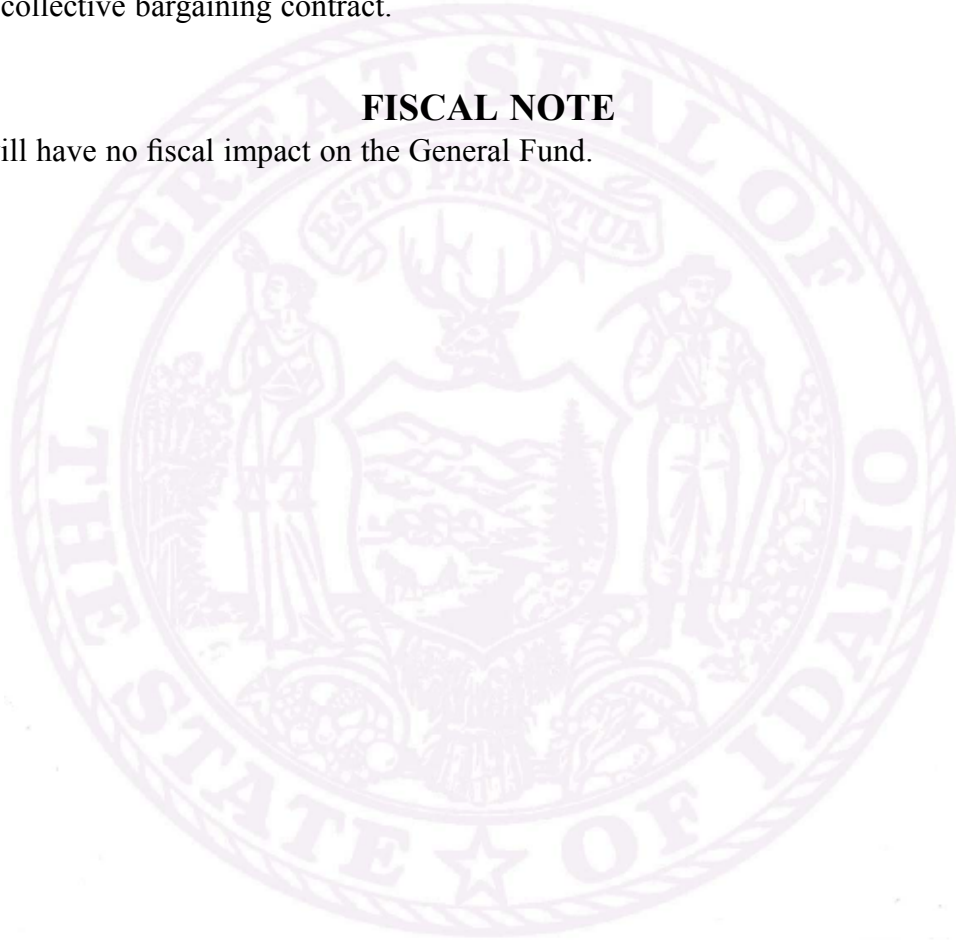

RS19591

This piece of legislation will clarify that a person contracting with a dentist cannot set the rate for a procedure that is not covered by that contract. Currently said contracts have the ability to set rates for non-covered services. The proposed bill also defines what a covered service is.

The bill will apply to any contract which is issued after January 1, 2011. Existing contracts will be brought into compliance on the next anniversary date, renewal date or the expiration date of the applicable collective bargaining contract.

FISCAL NOTE

This bill will have no fiscal impact on the General Fund.
