

## **STATEMENT OF PURPOSE**

### **RS19551**

This legislation relates to motor vehicle registration. A problem was created by the passage of legislation during the 2009 session which required every motor vehicle, when registered, to be tied to either a social security number or an employee identification number. The 2009 legislation provided an exemption for those persons who do not have a social security number. However, there is a need to allow for a similar exemption for businesses, trusts or other artificial entities who do not have an employee identification number.

### **FISCAL NOTE**

This legislation clarifies state policy. Therefore, there is no fiscal impact.
