provided herein.

(g) "Qualifying biomass" does not mean yard debris, urban waste, black liquor, sawmill waste or residuals or wood that has been treated with creosote, pentachlorophenol, inorganic arsenic or other inorganic chemical compounds.

5 (2) (a) A biomass owner shall be allowed a credit for qualifying biomass
6 collected and delivered to a biomass energy producing facility in the
7 amount of ten dollars (\$10.00) per green ton against the taxes that
8 would otherwise be due under the provisions of Idaho Code.

9 (b) A credit under this section may be claimed in the tax year in which
10 the biomass owner transfers qualifying biomass to a biomass energy pro11 ducing facility.

(3) The amount of the credit claimed under this section for any tax year
may not exceed the combined/consolidated tax liability of the taxpayer after
taking into account any other credits the taxpayer is entitled to.

(4) (a) A biomass energy producing facility shall provide a written receipt to a biomass owner at the time the qualifying biomass is transferred from the biomass owner to the biomass energy producing facility.
The receipt must state the delivered quantity of the qualifying biomass and include a statement that the qualifying biomass is to be used exclusively to produce heat, steam, biofuel or electricity.

(b) Each biomass owner shall maintain the receipts described in this
section in their records for as long as the statute of limitations is
open for the tax year in which the credit is claimed.

(5) The credit shall be claimed on a form prescribed by the state tax
 commission that contains the information required by the commission which
 must include, but is not limited to:

(a) the name, address and taxpayer identification number of the biomassowner;

(b) certification, under penalty of perjury, that the credit claimedcomplies with the provisions of this section;

(c) quantity and origin of the qualifying biomass for which the creditallowed under this section is sought; and
