

STATEMENT OF PURPOSE

RS19425

The purpose of this bill is to enable the Washington County Ambulance district to continue operating and utilizing the same levy rate they have been using without mandatory reversion to a lower one based upon changing market value. This maintains the original intent of the legislation adopted in 1976.

FISCAL NOTE

There is no impact on the State General Fund nor any taxing district. There is no additional increase in taxes as this only allows the district to be able to continue using the current levy rate they have been using.
