Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residents are left without representation. And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us residential consumers as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Linda Bird

Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As a long-time resident of Idaho, I have watched my utility rates soar over the years. While utility companies operating in Idaho, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without adequate representation.

And that costs us, we are often left out of the discussion and our views and voices left unheard. It is becoming more and more common in our representative form of government, for the big dog with the biggest bite, to control the decisions made for the majority of us.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Greg Cossette

Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Mrs. Jennie Long

I'M ON SOCIAL SECURITY & EVEN THOUGH I DON'T GET A MONTHLY INCREASE ON THAT BECUZ MY COST OF LIVEING HASN'T WENT UP!!!! HA HA HA. THAT'S A JOKE WITHIN IT SELF!! THE COSTS OF MY LIVEING EXPENCES GO UP EVERY TIME JUST LIKE EVERYONE ELSE'S!!!! NO NEED FOR ANOTHER INCREASE. PLEASE HELP THE LITTLE PEOPLE ABOUT THIS & YES HONESTLY MY COST'S INCREASE JUST LIKE EVERYONE'S ELSE.

THANK-YOU , DEE DALY

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

Please give us a voice. Over the years I have lived in Idaho repeatedly the large utilities come before our PUC to increase rates by a certain percentage. Repeatedly our PUC says "No, you cannot raise rates by that percentage, but you CAN raise them by this percentage."

It just seems there is a flat NO, only a qualified No.

Should these businesses operate at a profit? Absolutely! But our PUC has not been as diligent protecting the people on Main Street as they seemingly should have been.

Please give us this voice!

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Boise, ID

Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Ms. Diane Ringler

Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology  
Boise, ID

Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Mr. Mark Spiegel

Mrs. Cynthia Kelley

Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates get higher and higher over the last 20 years. It is unfortunate that Idaho utility companies, etc. have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

It is also unfortunate that we are often left out of the discussion and costs the average person. We should have a way for the average person to be able to voice their wants and needs.

There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,

For instance, Idaho Power has a yearly "rate" increase called the power cost adjustment. A "rate" increase based on the water level. Even in good water years they find a way to get around honoring this, as they did the previous year saying, even with the good water they owed money for improvements and couldn't lower the rates as agreed originally for good water years. Basically they get increases upon increases. Since this is in effect they should get NO MORE rate increases. This should cover power costs and for other expenses stockholders must take a bit less to cover outlays necessary to fix equipment, new growth must pay for itself etc. Also, Idaho Power and United Water BOTH saying they needed rate increases due to conservation (THE SAME CONSERVATION THEY ENCOURAGE AND SEND OUT FLYERS WITH BILLS TO TELL YOU HOW TO CONSERVE) is ludicrous and some of us are intelligent enough to realize that! We must live on a budget and our income, too, is cut, no raises, fewer hours etc. SO MUST THEY...they being the utilities. They cannot get blood from a turnip and soon such greed catches up and customers begin to realize the problem with utilities that are monopolies...with stockholders instead of concern for customers! We need a say, we are a VOTE and many of us see the ludicrous behavior that the PUC agrees too! Our voices will be heard!

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Mrs. Kathy Steinmetz

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

I feel any utility in IDAHO needs to be stressing the importance of energy conservation. To that end - Utilities need to be insentivized to offer programs to remove high enegy use appliances and lighting by replacement of energy efficient devices. Allowing low cost no interest loans and offering tax breaks to the home owners and businesses.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Mr. Gary Cummings

And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Ms. Patricia Cullender

Subject: I want strong consumer protections included in Idaho's Draft Energy Plan!

Dear Legislators serving on the Idaho Interim Committee on Energy, Environment & Technology,

I am writing to urge you to include the creation a Consumer Advocate Office in the Idaho Draft Energy Plan, 2012.

As an Idaho resident, I have watched my utility rates soar over the years. While Idaho utility companies, and other interest groups, have the funding, staffing and expertise to make their voices heard in rate cases and other regulations that impact Idaho consumers, state residential consumers and small businesses are left without representation.

And that costs us, we are often left out of the discussion and our views and voices left unheard.

This has got to change. There is no one to advocate for us as a group before regulatory agencies and the courts. The creation of a Consumer Advocate Office fills a major gap in Idaho energy policy.

Idaho is the only state in the West lacking this type of basic consumer protection. As you consider changes to Idaho's Energy Plan, I am urging you to make this critical change to protect Idaho consumers.

Sincerely,  
Mrs. Linda Radford
