

STATEMENT OF PURPOSE

RS20192C2

The purpose of this legislation is to nullify the two federal laws: Public Law 111-148 and Public Law 111-152. This legislation invokes the original intent of the founding fathers that the sovereign states have the earnest responsibility and the legitimate authority to interpose to protect their citizens from unconstitutional acts of the federal government.

FISCAL NOTE

Estimates of initial costs to the state to comply with the federal mandate associated with the two above laws are \$228,000,000. Additional cost to implement and maintain the infrastructure for compliance are unknown at this time. This proposed legislation will save the state multi-millions of dollars.
