

STATEMENT OF PURPOSE

RS19962

The Heating, Ventilation and Air Conditioning Board members prefer to be compensated in the form of a fifty dollar (\$50) per day honorarium in lieu of the fifty dollar (\$50) per day salary they currently receive to perform Board functions. Amendment to Section 54-5004(5), Idaho Code, would merely adopt a different paragraph of Section 59-509, Idaho Code. This change in compensation will adjust the Board members' eligibility and obligations with regard to PERSI participation and also bring the nature of the Board members' per day compensation into line with that of the other boards operating under the Division of Building Safety. Additionally, amendments to Section 54-5004, Idaho Code, would change the term of appointment for several board members in order to more evenly stagger the terms of all the members. This would prevent the existing situation in which five (5) of the seven (7) members are appointed in the same year.

FISCAL NOTE

Negligible adverse impact.
