

STATEMENT OF PURPOSE

RS20212

This legislation would amend Idaho Code 33-511 to remove the requirement for a consolidated district to hold an election to discontinue the use of a building but only when that building has been declared an imminent public safety hazard by the Division of Building Safety. Currently five voters can force an election to determine if such a building can be closed, even if its condition will not allow its use, and its retention will mandate the additional cost of upkeep.

FISCAL NOTE

No impact to the state general fund
