4 12 or more.....	12	1 or more as 5 computed

6 In applying these tables to any given separate attendance unit, no
7 school district shall receive less total money than it would receive if it
8 had a lesser average daily attendance in such separate attendance unit.
9 In applying the kindergarten table to a kindergarten program of less days
10 than a full school year, the support unit allowance shall be in ratio to
11 the number of days of a full school year. The tables for exceptional edu-
12 cation and alternative school secondary support units shall be applicable
13 only for programs approved by the state department of education following
14 rules established by the state board of education. Moneys generated from
15 computation of support units for alternative schools shall be utilized for
16 alternative school programs. School district administrative and facility
17 costs may be included as part of the alternative school expenditures.

18 (5) State Distribution Factor per Support Unit. Divide educational
19 support program distribution funds, after subtracting the amounts necessary
20 to pay the obligations specified in subsection (2) of this section, by the
21 total state support units to secure the state distribution factor per sup-
22 port unit.

23 (6) District Support Units. The number of support units for each school
24 district in the state shall be determined as follows:

25 (a) (i) Divide the actual average daily attendance, excluding stu-
26 dents approved for inclusion in the exceptional child educational
27 program, for the administrative schools and each of the separate
28 schools and attendance units by the appropriate divisor from the
29 tables of support units in this section, then add the quotients
30 to obtain the district's support units allowance for regular stu-
31 dents, kindergarten through grade 12 including alternative school
32 secondary students. Calculations in application of this subsec-
33 tion shall be carried out to the nearest tenth.

34 (ii) Divide the combined totals of the average daily attendance
35 of all preschool, kindergarten, elementary, secondary, juvenile
36 detention center students and students with disabilities approved
37 for inclusion in the exceptional child program of the district by
38 the appropriate divisor from the table for computation of excep-
39 tional education support units to obtain the number of support
40 units allowed for the district's approved exceptional child pro-
41 gram. Calculations for this subsection shall be carried out to the
42 nearest tenth when more than one (1) unit is allowed.

43 (iii) The total number of support units of the district shall be
44 the sum of the total support units for regular students, subsec-
45 tion (6) (a) (i) of this section, and the support units allowance
46 for the approved exceptional child program, subsection (6) (a) (ii)
47 of this section.

1 (b) Total District Allowance Educational Program. Multiply the dis-
 2 trict's total number of support units, carried out to the nearest tenth,
 3 by the state distribution factor per support unit and to this product
 4 add the approved amount of programs of the district provided in subsec-
 5 tion (2) of this section to secure the district's total allowance for
 6 the educational support program.

7 (c) District Share. The district's share of state apportionment is the
 8 amount of the total district allowance, subsection (6) (b) of this sec-
 9 tion.

10 (d) Adjustment of District Share. The contract salary of every noncer-
 11 tificated teacher shall be subtracted from the district's share as cal-
 12 culated from the provisions of subsection (6) (c) of this section.

13 (7) Property Tax Computation Ratio. In order to receive state funds
 14 pursuant to this section a charter district shall utilize a school mainte-
 15 nance and operation property tax computation ratio for the purpose of cal-
 16 culating its maintenance and operation levy, that is no greater than that
 17 which it utilized in tax year 1994, less four-tenths of one percent (.4%). As
 18 used herein, the term "property tax computation ratio" shall mean a ratio de-
 19 termined by dividing the district's certified property tax maintenance and
 20 operation budget by the actual or adjusted market value for assessment pur-
 21 poses as such values existed on December 31, 1993. Such maintenance and op-
 22 eration levy shall be based on the property tax computation ratio multiplied
 23 by the actual or adjusted market value for assessment purposes as such values
 24 existed on December 31 of the prior calendar year.

25 SECTION 5. That Section 33-1002, Idaho Code, be, and the same is hereby
 26 amended to read as follows:

40 daily attendance time that is spent in attendance at each school district,
41 public charter school or online course. This provision shall not apply to:

42 (a) An online course in which the school district or public charter
43 school has a contract in place for the provision of online courses.

44 (b) Any online course which causes the total number of courses in which
45 a student is enrolled to exceed the maximum number of periods of in-
46 struction offered at the school in which the student is enrolled. If a
47 student is enrolled in multiple online courses and one (1) or more on-
48 line course falls within this limitation and one (1) or more fall beyond
49 it, then the most expensive courses shall be subject to fractional aver-

1 age daily attendance. School districts and public charter schools may
2 choose to pay for any online courses that fall beyond the limitation of
3 this paragraph, at their discretion. The parents or guardians of stu-
4 dents shall be responsible for paying the cost of any online courses in
5 which the student is enrolled beyond the limitation of this paragraph,
6 unless such cost has been paid by the student's school district or pub-
7 lic charter school. A student's home school district or public charter
8 school shall notify the student's parent or guardian at the time of reg-
9 istration if any online courses in which the student is enrolling exceed
10 the maximum provided in this paragraph.

11 (2) For online courses subject to fractional counting and division, the
12 average daily attendance shall be counted and funded as part of the student's
13 home school district or public charter school attendance. However, the
14 state department of education shall identify the fraction attributable to
15 such attendance for each student and furnish the home school district or pub-
16 lic charter school with a dollar amount of funding attributable to each such
17 fraction. The home school district or public charter school shall then remit
18 two-thirds (2/3) of such amount to each online course content provider.

19 (3) For the purposes of this section and section 33-1627, Idaho Code,
20 the term "online course" means a course which delivers a sequential program
21 of synchronous and/or asynchronous instruction primarily through the use of
22 technology, in which the instructor is not physically located at the school
23 or place in which the student is receiving instruction. Nothing in this def-
24 inition shall prohibit a blended course that includes face-to-face, in per-
25 son instruction, provided that a majority of the instruction is delivered as
26 stated herein.

27 SECTION 7. That Section 33-1004, Idaho Code, be, and the same is hereby
28 amended to read as follows:

29 33-1004. STAFF ALLOWANCE. For each school district, a staff allowance
30 shall be determined as follows:

31 (1) Using the daily attendance reports that have been submitted for
32 computing the February 15 apportionment of state funds as provided in sec-
33 tion 33-1009, Idaho Code, determine the total support units for the district
34 in the manner provided in section 33-1002(6)(a), Idaho Code;

35 (2) Determine the instructional staff allowance by multiplying the
36 support units by 1.1. A district must demonstrate that it actually employs
37 the number of certificated instructional staff allowed, except as provided
38 in subsection (5)(f), ~~and (g)~~ and (h) of this section. If the district does
39 not employ the number allowed, the staff allowance shall be reduced to the
40 actual number employed, except as provided in subsection (5)(f), ~~and (g)~~ and
41 (h) of this section;

42 (3) Determine the administrative staff allowance by multiplying the
43 support units by .075;

44 (4) Determine the classified staff allowance by multiplying the sup-
45 port units by .375;

46 (5) Additional conditions governing staff allowance:

47 (a) In determining the number of staff in subsections (2), (3) and (4)
48 of this section, a district may contract separately for services to be
49 rendered by nondistrict employees and such employees may be counted

1 in the staff allowance. A "nondistrict employee" means a person for
2 whom the school district does not pay the employer's obligations for
3 employee benefits. When a district contracts for the services of a
4 nondistrict employee, only the salary portion of the contract shall be
5 allowable for computations.

6 (b) If there are circumstances preventing eligible use of staff al-
7 lowance to which a district is entitled as provided in subsections (2)
8 and (3) of this section, an appeal may be filed with the state depart-
9 ment of education outlining the reasons and proposed alternative use of
10 these funds, and a waiver may be granted.

11 (c) For any district with less than forty (40) support units:

12 (i) The instructional staff allowance shall be calculated
13 applying the actual number of support units. If the actual in-
14 structional staff employed in the school year is greater than the
15 instructional staff allowance, then the instructional staff al-
16 lowance shall be increased by one-half (1/2) staff allowance; and

17 (ii) The administrative staff allowance shall be calculated ap-
18 plying the actual number of support units. If the actual adminis-
19 trative staff employed in the school year is greater than the ad-
20 ministrative staff allowance, then the administrative staff al-
21 lowance shall be increased by one-half (1/2) staff allowance.

22 (iii) Additionally, for any district with less than twenty (20)
23 support units, the instructional staff allowance shall be calcu-
24 lated applying the actual number of support units. If the number
25 of instructional staff employed in the school year is greater than
26 the instructional staff allowance, the staff allowance shall be
27 increased as provided in paragraphs (i) and (ii) of this subsec-
28 tion, and by an additional one-half (1/2) instructional staff al-
29 lowance.

30 (d) For any school district with one (1) or more separate secondary
31 schools serving grades nine (9) through twelve (12), the instructional
32 staff allowance shall be increased by two (2) additional instructional
33 staff allowances for each such separate secondary school.

34 (e) Only instructional, administrative and classified personnel
35 compensated by the school district from the general maintenance and
36 operation fund of the district shall be included in the calculation
37 of staff allowance or in any other calculations based upon staff, in-
38 cluding determination of the experience and education multiplier, the
39 reporting requirements, or the district's salary-based apportionment
40 calculation. No food service staff or transportation staff shall be
41 included in the staff allowance.

42 (f) A district may utilize up to ~~five~~ fifteen percent (15%) of the mon-
43 eys associated with positions funded pursuant to subsection (2) of this
44 section to pay another school district or public charter school for in-
45 structional services or to defray the cost of providing virtual educa-
46 tion coursework, including virtual dual credit coursework, without a
47 reduction in the number of funded positions being imposed.

48 (g) For the period July 1, 2009, through June 30, 2011, only, a district
49 may shift up to five percent (5%) of the positions funded pursuant to

subsection (2) of this section to federal funds, without a reduction in the number of funded positions being imposed.

(h) A district may employ fewer positions than funded pursuant to subsection (2) of this section, without a reduction in the number of funded positions being imposed, subject to the following limits on the percent of such positions that may be reduced:

<u>Fiscal Year</u>	<u>Percentage</u>
<u>2012</u>	<u>6%</u>
<u>2013</u>	<u>8%</u>
<u>2014 and each fiscal year thereafter</u>	<u>10%</u>

(6) In the event that the staff allowance in any category is insufficient to meet accreditation standards, a district may appeal to the state board of education, demonstrating the insufficiency, and the state board may grant a waiver authorizing sufficient additional staff to be included within the staff allowance to meet accreditation standards. Such a waiver shall be limited to one (1) year, but may be renewed upon showing of continuing justification.

SECTION 8. That Section 33-1004A, Idaho Code, be, and the same is hereby amended to read as follows:

33-1004A. EXPERIENCE AND EDUCATION MULTIPLIER. Each instructional and administrative staff position shall be assigned an appropriate multiplier based upon the following table:

3 In determining the experience factor, the actual years of teaching
4 or administrative service in a public school, in an accredited private or
5 parochial school, or beginning in the 2005-06 school year and thereafter in
6 an accredited college or university shall be credited, minus two (2); pro-
7 vided however, that the experience factor cannot be less than zero (0).

8 In determining the education factor, only credits earned after initial
9 certification, based upon a transcript on file with the teacher certifica-
10 tion office of the state department of education, earned at an institution of
11 higher education accredited by the state board of education or a regional ac-
12 crediting association, shall be allowed. Provided however, that successful
13 completion of a state-approved mathematical thinking for instruction course
14 shall be counted as transcribed credit. Instructional staff whose initial
15 certificate is an occupational specialist certificate shall be treated as
16 BA degree prepared instructional staff. Credits earned by such occupational
17 specialist instructional staff after initial certification shall be cred-
18 ited toward the education factor. ~~For the time period July 1, 2010, through~~
19 ~~June 30, 2011, instructional and administrative staff shall not advance on~~
20 ~~the education portion of the multiplier table.~~

21 In determining the statewide average multiplier for instructional
22 staff, no multiplier in excess of 1.59092 shall be used. If the actual
23 statewide average multiplier for instructional staff, as determined by this
24 section, exceeds 1.59092, then each school district's instructional staff
25 multiplier shall be multiplied by the result of 1.59092 divided by the actual
26 statewide average multiplier for instructional staff.

27 In determining the statewide average multiplier for administrative
28 staff, no multiplier in excess of 1.86643 shall be used. If the actual
29 statewide average multiplier for administrative staff, as determined by
30 this section, exceeds 1.86643, then each school district's administrative
31 staff multiplier shall be multiplied by the result of 1.86643 divided by the
32 actual statewide average multiplier for administrative staff.

33 SECTION 9. That Section 33-1004E, Idaho Code, be, and the same is hereby
34 amended to read as follows:

35 33-1004E. DISTRICT'S SALARY-BASED APPORTIONMENT. Each district shall
36 be entitled to a salary-based apportionment calculated as provided in this
37 section.

38 1. To determine the apportionment for instructional staff, first de-
39 termine the district average experience and education index by placing all
40 eligible district certificated instructional employees on the statewide
41 index provided in section 33-1004A, Idaho Code. The resulting average is the
42 district index. ~~Districts with an index above the state average index shall~~
43 ~~receive their actual index but not more than the state average plus .03 for~~
44 ~~the 1994-95 school year, and shall receive their actual index but not more~~
45 ~~than the state average plus .06 for the 1995-96 school year, and thereafter~~
46 ~~shall receive their actual district index.~~ The district instructional staff
47 index shall be multiplied by the instructional base salary of \$23,565. The

1 amount so determined shall be multiplied by the district staff allowance
 2 for instructional staff determined as provided in section 33-1004(2), Idaho
 3 Code. The instructional salary allocation shall be further increased by the
 4 amount necessary for each full-time equivalent instructional staff member
 5 placed on the experience and education index to be allocated at least the
 6 minimum salary mandated by this section. Full-time instructional staff
 7 salaries shall be determined from a salary schedule developed by each dis-
 8 trict and submitted to the state department of education. No full-time
 9 instructional staff member shall be paid less than \$29,65530,000. ~~If an~~
 10 ~~instructional staff member has been certified by the national board for~~
 11 ~~professional teaching standards, the staff member shall be designated as~~
 12 ~~a master teacher and receive \$2,000 per year for five (5) years. The in-~~
 13 ~~structional salary shall be increased by \$2,000 for each master teacher~~
 14 ~~provided however, that no such awards shall be paid for the period July 1,~~
 15 ~~2010, through June 30, 2011, nor shall any liabilities accrue or payments~~
 16 ~~be made pursuant to this section in the future to any individuals who would~~
 17 ~~have otherwise qualified for a payment during this stated time period. The~~
 18 ~~resulting amount is the district's salary-based apportionment for instruc-~~
 19 ~~tional staff. For purposes of this section, teachers qualifying for the~~
 20 ~~salary increase as master teacher shall be those who have been recognized as~~
 21 ~~national board certified teachers as of July 1 of each year~~ After the base
 22 and minimum salaries established pursuant to this subsection have reached
 23 the amounts that were in effect in fiscal year 2009, all further increases to
 24 these base and minimum salaries shall be allocated such that the percentage
 25 increase in the minimum salary is one and one-half (1.5) times the percentage
 26 increase in the base salary.

27 2. To determine the apportionment for district administrative staff,
 28 first determine the district average experience and education index by plac-
 29 ing all eligible certificated administrative employees on the statewide
 30 index provided in section 33-1004A, Idaho Code. The resulting average is
 31 the district index. Districts with an index above the state average index
 32 shall receive their actual index but not more than the state average plus .03
 33 for the school year 1994-95, and shall receive their actual index but not
 34 more than the state average index plus .06 for the 1995-96 school year, and
 35 thereafter shall receive their actual district index. The district adminis-
 36 trative staff index shall be multiplied by the base salary of \$32,441. The
 37 amount so determined shall be multiplied by the district staff allowance for
 38 administrative staff determined as provided in section 33-1004(3), Idaho
 39 Code. The resulting amount is the district's salary-based apportionment for
 40 administrative staff.

41 3. To determine the apportionment for classified staff, multiply
 42 \$19,041 by the district classified staff allowance determined as provided in
 43 section 33-1004(4), Idaho Code. The amount so determined is the district's
 44 apportionment for classified staff.

45 4. The district's salary-based apportionment shall be the sum of the
 46 apportionments calculated in subsections 1., 2. and 3., of this section,
 47 adjusted by the following percentages:

<u>Fiscal Year</u>	<u>Percentage</u>
<u>2012</u>	<u>(1.67%)</u>

1	<u>2013</u>	<u>(4.05%)</u>
2	<u>2014</u>	<u>(6.30%)</u>
3	<u>2015</u>	<u>(6.42%)</u>
4	<u>2016</u>	<u>(6.21%)</u>
5	<u>2017 and each fiscal year thereafter</u>	<u>(5.74%)</u>

6 plus the benefit apportionment as provided in section 33-1004F, Idaho Code.

7 SECTION 10. That Section 33-1004F, Idaho Code, be, and the same is
8 hereby amended to read as follows:

9 33-1004F. OBLIGATIONS TO RETIREMENT AND SOCIAL SECURITY BENEFITS. ~~1.~~
10 Based upon the actual salary-based apportionment, as determined in section
11 33-1004E, Idaho Code, plus distributions made pursuant to section 33-1004I,
12 Idaho Code, there shall be allocated that amount required to meet the em-
13 ployer's obligations to the public employee retirement system and to social
14 security.

15 ~~2. If a district's qualifying salaries total more than the district's~~
16 ~~salary-based apportionment, there shall be allocated an additional amount~~
17 ~~to meet the employer's obligation to the public employee retirement system~~
18 ~~and to social security equal to two-thirds (2/3) of the additional obliga-~~
19 ~~tion for the school year 1994-95. If a district's qualifying salaries total~~
20 ~~more than the district's salary-based apportionment, there shall be allo-~~
21 ~~cated an additional amount to meet the employer's obligation to the public~~
22 ~~employee retirement system and to social security equal to one-third (1/3)~~
23 ~~of the additional obligation for the school year 1995-96. Thereafter, the~~
24 ~~benefit allocation shall be based solely upon the provisions of subsection~~
25 ~~1. of this section.~~

26 SECTION 11. That Section 33-1020, Idaho Code, be, and the same is hereby
27 amended to read as follows:

28 33-1020. IDAHO DIGITAL LEARNING ACADEMY FUNDING. Of the moneys appro-
29 priated for the educational support program, an amount shall be distributed
30 to support the Idaho digital learning academy, created pursuant to chapter
31 55, title 33, Idaho Code. For the purposes of this section, an "enrollment"
32 shall be counted each time an Idaho school age child enrolls in an Idaho dig-
33 ital learning academy class. A single child enrolled in multiple classes
34 shall count as multiple enrollments. Summer enrollments shall be included
35 in the fiscal year that begins that summer. The amount distributed shall be
36 calculated as follows:

37 (1) A fixed base amount shall be distributed, equal to the current fis-
38 cal year's statewide average salary-based apportionment funding per midterm
39 support unit, multiplied by seven (7).

40 (2) A variable base amount shall be distributed each time the number
41 of enrollments meets or exceeds an increment of five thousand (5,000). The
42 amount so distributed shall be equal to the number of such increments, mul-
43 tiplied by the current fiscal year's statewide average salary-based appor-
44 tionment funding per midterm support unit, multiplied by four and thirty-
45 three hundredths (4.33).

1 ~~(3) A variable amount shall be distributed, equal to the number of en-~~
2 ~~rollments multiplied by the current fiscal year's statewide average salary-~~
3 ~~based apportionment funding per midterm support unit, divided by one hundred~~
4 ~~forty-three (143).~~

5 If the revenue received by the Idaho digital learning academy pursuant
6 to this section, section 33-1002A, Idaho Code, and any contracts with school
7 districts or public charter schools, is less than \$3,500,000 in fiscal year
8 2013 or fiscal year 2014, then the moneys distributed to the Idaho digital
9 learning academy pursuant to this section shall be increased by the amount
10 necessary to ensure that the total dollars received by the Idaho digital
11 learning academy from all such sources is equal to \$3,500,000 for each of the
12 stated fiscal years.

13 The state department of education shall make an estimated distribu-
14 tion of funds to the Idaho digital learning academy by no later than July
15 31 of each fiscal year, consisting of eighty percent (80%) of the estimated
16 funding for the fiscal year. The balance of all remaining funds to be dis-
17 tributed, pursuant to the calculations in this section, shall be distributed
18 by no later than May 15 of the same fiscal year.

19 SECTION 12. That Chapter 10, Title 33, Idaho Code, be, and the same is
20 hereby amended by the addition thereto of a NEW SECTION, to be known and des-
21 ignated as Section 33-1021, Idaho Code, and to read as follows:

22 33-1021. MATH AND SCIENCE REQUIREMENT. In order to meet state gradua-
23 tion requirements regarding math and science courses, moneys shall be dis-
24 tributed to school districts to defray the cost of providing additional math
25 and science courses. Moneys so distributed shall be used to hire additional
26 high school math and science teachers or to defray costs associated with pro-
27 viding math and science courses to high school students. Moneys shall be
28 distributed to school districts from the moneys appropriated to the educa-
29 tional support program for each regular high school, not including alterna-
30 tive schools, based on the following criteria:

31 (1) For each school with enrollment of 99 or less, distribute the equiv-
32 alent of one ninth (1/9) of a classified staff position.

33 (2) For each school with enrollment of 100 to 159, distribute the equiv-
34 alent of one and one-quarter (1.25) of a classified staff position.

35 (3) For each school with enrollment of 160 to 319, distribute the equiv-
36 alent of two sevenths (2/7) of a classified staff position.

37 (4) For each school with enrollment of 320 to 639, distribute the equiv-
38 alent of one (1.0) instructional staff position, based on the statewide av-
39 erage funding per position.

40 (5) For each school with enrollment of 640 or more, distribute the
41 equivalent of one (1.0) instructional staff position, based on the statewide
42 average funding per position, and three-quarters (0.75) of a classified
43 staff position.

44 For the purposes of these school size classifications for regular high
45 schools that serve only grades 10-12, ninth grade students who will attend
46 the regular high school upon matriculating to tenth grade shall be included
47 as enrolled in the regular high school.

1 SECTION 13. That Chapter 10, Title 33, Idaho Code, be, and the same is
 2 hereby amended by the addition thereto of a NEW SECTION, to be known and des-
 3 ignated as Section 33-1022, Idaho Code, and to read as follows:
