

STATEMENT OF PURPOSE

RS20673

This is a trailer bill to S 1103 and corrects an inadvertent error regarding a retroactive date. Without this correction, an ambiguity would exist as to whether the Legislature intended S 1103, dealing with child support collections, to be applied retroactively to 1995.

FISCAL NOTE

This trailer bill to S 1103 has no additional fiscal impact beyond that intended by S 1103. The fiscal note for S 1103 provided "Without this change, all state debt where collection activities had been unsuccessful prior to the running of the statute of limitations would be uncollectible. Currently that amount stands at approximately \$20,000,000 and continues to grow monthly. The program could be ordered to reimburse child support obligors for child support collected by the Department after the running of the statute which is currently approximately \$11,500,000."
