

STATEMENT OF PURPOSE

RS21009

This legislation contains revisions designed to modernize and clarify the provisions governing the Idaho Wheat Commission. Language put in place when the Commission was established is no longer applicable or narrowly addressed the conditions at that time. Clarifications in the legislation include the process for removing a Commission member, a reference to soliciting donations, the process for calling a meeting, and providing additional authority over the rate assessed for wheat production in the state of Idaho.

FISCAL NOTE

There is no fiscal impact.
