

STATEMENT OF PURPOSE

RS21273C1

This purpose of this legislation is to make a request to the President of the United States and the Congress of the United States to reverse and reject the US Department of Health and Human Services' regulation regarding new "prevention services" which violates the rights of conscience of a majority of US citizens. This would allow those who sponsor, purchase and issue health insurance plans to not be forced to violate their deeply held moral and religious convictions in order to take part in any health care system that violates their belief in the sanctity of life. Instead, these health care professionals would have the right to purchase or enroll in a health insurance plan, without penalty, that is consistent with their moral and religious beliefs.

FISCAL NOTE

There is no fiscal impact to the General Fund.
