DATE: September 18, 2013

SUBJECT: Division of Building Safety

IDAPA 07.03.01 - Rules Pertaining To The Rules of Building Safety - International Residential & Energy Conservation Codes (Docket No. 07-0301-1301)

IDAPA 07.03.01 - Rules Pertaining To The Rules of Building Safety - bracing walls in 1 & 2-family dwellings (Docket No. 07-0301-1302)

1. IDAPA 07.03.01 - Rules Pertaining To The Rules of Building Safety - International Residential & Energy Conservation Codes (Docket No. 07-0301-1301).

The Division of Building Safety submits notice of proposed rulemaking at 07.03.01 -- Rules of Building Safety. The division notes that the proposed rule reflects the adoption, with certain amendments, of the 2012 editions of the International Building Code, the International Residential Code and the International Energy Conservation Code. The division also notes that the proposed rule is the result of negotiated rulemaking, including participation from members of the building industry, local building official, code development official, Board members and other stakeholders. This collaborative approach formed the basis for the first four dockets discussed in this memorandum.

The proposed rule includes a number of amendments, proposed to the Board by stakeholders, to the adopted international codes. The division states that the adopted amendments could save contractors and property owners certain expenses while not compromising health or safety. The amendments to the International Building Code bring the rule into conformity with statute which allows day care facilities within a residence. (See Rule Section 004.01.) Other amendments concerning energy efficiency were also proposed by the stakeholder group. The division states that amendments to the energy and residential codes restore provisions that existed in the 2009 edition of the codes or provide efficient and economical alternative methods to comply with the codes.

The agency's proposed rule appears to be authorized pursuant to section 39-4107 and 39-4109, Idaho Code.

2. IDAPA 07.03.01 - Rules Pertaining To The Rules of Building Safety - bracing walls in 1 & 2-family dwellings (Docket No. 07-0301-1302).

The Division of Building Safety submits notice of proposed rulemaking at 07.03.01 -- Rules of Building Safety. The proposed rule in this docket reflects negotiated rulemaking with a group of stakeholders described in the immediately preceding docket addressed in the memorandum. The proposed rule amends the International Residential Code by adding an optional method for bracing a wall in one and two family dwellings. The amendment includes a provision from the most recent edition of an APA - Engineered Wood Association publication. (See Rule Section 004.02.1.)

The division's proposed rule appears to be authorized pursuant to sections 39-4104 and 39-4109, Idaho Code.

3. IDAPA 07.03.01 - Rules Pertaining To The Rules of Building Safety - Remodels of B&Bs (Docket No. 07-0301-1303).

The Division of Building Safety submits notice of proposed rulemaking at 07.03.01 -- Rules of Building Safety. The proposed rule in this docket is the result of negotiated rulemaking described in the two preceding dockets. The proposed rule in this docket amends the International Residential code so that certain lodging houses (bed and breakfasts) may be constructed, remodeled or operated pursuant to the provisions of the Residential Code instead of the commercial Building Code (See Rule Section 004.02.b.)

The agency's proposed rule appears to be authorized pursuant to sections 39-4107 and 39-4109, Idaho Code.

4. IDAPA 07.03.01 - Rules Pertaining To The Rules of Building Safety - Fire resistant floors in residences (Docket No. 07-0301-1304).

The Division of Building Safety submits notice of proposed rulemaking at 07.03.01 -- Rules of Building Safety. The proposed rule in this docket is the result of negotiated rulemaking described in the three preceding dockets. The revisions in the proposed rule include the following: amend the International Residential Code by eliminating a requirement that floors in residences not already "fire resistance rated" shall be enhanced with additional structural fire protection (wallboard, wood or equivalent fire protection) on the underside of the floor assembly. The agency states that by eliminating this requirement found in the 2012 edition of the IRC, there will be a cost savings to builders and property owners. The division notes that a number of exceptions to the new provision found in the IRC already exist in the code.

The agency's proposed rule appears to be authorized pursuant to sections 39-4107 and 39-4109, Idaho Code.

5. IDAPA 07.03.11 - Rules Pertaining To The Rules Governing Manufactured/Mobile Home Industry Licensing (Docket No. 07-0311-1301).

The Division of Building Safety submits notice of proposed rulemaking at 07.03.11 -- Rules Governing Manufactured/Mobile Home Industry Licensing. The proposed rule in this docket reflects amendments to statute made during the 2013 Session. The legislation removed a requirement that persons and companies that provide work on manufactured and mobile homes be licensed. (See Rule Sections 012.03 and 012.07.) The proposed rule reflects that statutory change. The proposed rule also includes revisions to certain definitions to more closely mirror statutory definitions.

The agency states that negotiated rulemaking was not conducted because the rulemaking was simple in nature.

The agency's proposed rule appears to be authorized pursuant to section 44-2104, Idaho Code.

DOCKET NO. 07-0301-1301

NOTICE OF RULEMAKING - PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 39-4107 and 39-4109, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than September 18, 2013.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Adoption and amendment of the 2012 editions of the International Residential Code and International Energy Conservation Code was the result of negotiated rulemaking and the deliberations of a collaborative group consisting of members of the building industry, local building officials, code development officials, Board members, and other interested stakeholders. Code amendment proposals submitted to the Board by the collaborative group resulted in the Board's recognition that amending several provisions could save contractors and property owners significant expense without an adverse effect on health or safety. Specifically, amendments to the building code bring it into conformity with existing state laws which allow day care facilities within a residence. Amendments to the residential and energy codes restore many critical provisions back to the levels contained in the 2009 codes, and/or provide more economical alternate methods to ensure compliance with code requirements. All of which was advocated by the collaborative group and is more widely accepted within the industry. This rulemaking would result in the adoption of the 2012 International Residential Code (IRC) and 2012 International Energy Conservation Code (IECC) as building standards within Idaho among all jurisdictions. It would also make further amendments to the 2012 IRC and 2012 IECC related to energy code requirements and alternate methods of compliance, as well as amend the International Building Code (IBC) related to daycare facilities within residences.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year resulting from this rulemaking:

No impact to the General Fund; some increased short-term costs to jurisdictions enforcing the codes for obtaining code materials and training of inspectors. Amendments to the new code result in decreases in costs to builders that offset minor cost increases associated with new provisions contained in the code. However, no significant additional costs of conformance with the new versions of the codes were brought forward in discussions before the Board.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted. The Notice of Intent to Promulgate Rules - Negotiated Rulemaking was published in the May 1, 2013 Idaho Administrative Bulletin, [Vol. 13-5, pages 60 and 61](#).

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule:

Adoption and amendment of the 2012 editions of the International Residential Code and International Energy Conservation Code was the result of negotiated rulemaking and the deliberations of a collaborative group consisting of members of the building industry, local building officials, code development officials, Board members, and other interested stakeholders. Code amendment proposals submitted to the Board by the collaborative group resulted in the Board's recognition that amending several provisions could save contractors and property owners significant expense without an adverse effect on health or safety. Section 39-4109, Idaho Code, requires the adoption of the above-

referenced codes for the state of Idaho, and allows the Board to adopt subsequent editions and amendments thereto as it determines necessary.

NOTICE OF RULEMAKING - PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 39-4107 and 39-4109, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than September 18, 2013.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Amendment of the 2012 edition of the International Residential Code was the result of negotiated rulemaking and the deliberations of a collaborative group consisting of members of the building industry, local building officials, code development officials, Board members, and other interested stakeholders. This amendment will create more flexibility in building residential structures by adding an alternate method contractors may use when bracing a one and two-family dwelling residential wall by allowing such to be braced in accordance with the APA–Engineered Wood Association publication SR-102. This rulemaking would amend the International Residential Code by adding an alternate method of bracing walls in one and two-family dwellings by including the most recent edition of the APA System Report SR-102 as an additional standard.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year resulting from this rulemaking:

No fiscal impact to the General Fund or to the Agency, but may in certain situations result in savings to the owner or builder.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted under Docket No. 07-0301-1301. The Notice of Intent to Promulgate Rules - Negotiated Rulemaking was published in the May 1, 2013 Idaho Administrative Bulletin, [Vol. 13-5, pages 60 and 61](#).

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule:

Amendment of the 2012 edition of the International Residential Code was the result of negotiated rulemaking and the deliberations of a collaborative group consisting of members of the building industry, local building officials, code development officials, Board members, and other interested stakeholders. This amendment will create more flexibility in building residential structures by adding an alternate method contractors may use when bracing a one and two-family dwelling residential wall by allowing such to be braced in accordance with the APA–Engineered Wood Association publication SR-102. This rulemaking would amend the International Residential Code by adding an alternate method of bracing walls in one and two-family dwellings by including the most recent edition of the APA System Report SR-102 as an additional standard. Section 39-4109, Idaho Code, requires the adoption of the above-referenced codes for the state of Idaho, and allows the Board to adopt subsequent editions and amendments thereto as it determines necessary.

NOTICE OF RULEMAKING - PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 39-4107 and 39-4109, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than September 18, 2013.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Amendment of the 2012 edition of the International Residential Code was the result of negotiated rulemaking and the deliberations of a collaborative group consisting of members of the building industry, local building officials, code development officials, Board members, and other interested stakeholders. This amendment will allow owner-occupied lodging house occupancies (bed and breakfasts) with three or fewer guestrooms to be constructed or remodeled in accordance with the Residential Code instead of the commercial Building Code, and allow such to be operated without the installation of fire sprinklers. It will, however, require that smoke and carbon monoxide alarms be installed. This is expected to be a cost saving to owners of such occupancies who reside in them, relieving them from having to install fire sprinklers and comply with other requirements of the commercial Building Code if they are remodeled. This rulemaking would amend the International Residential Code to allow owner-occupied lodging house occupancies (bed and breakfasts) with three or fewer guestrooms to be constructed or remodeled in accordance with the Residential Code instead of the commercial Building Code. It also would allow such bed and breakfasts to be operated without the installation of fire sprinklers, but require that smoke and carbon monoxide alarms are installed.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year resulting from this rulemaking:

No impact to the General Fund. Amendment to the code would result in decreases in cost to operators of owner-occupied lodging houses (bed and breakfast property) as a result of the elimination of fire sprinkler requirements in those with three or fewer guestrooms. No significant additional costs of conformance with the newer edition of the code were brought forward in discussions before the board.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted under Docket No. 07-0301-1301. The Notice of Intent to Promulgate Rules - Negotiated Rulemaking was published in the May 1, 2013 Idaho Administrative Bulletin, [Vol. 13-5, pages 60 and 61](#).

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule:

DOCKET NO. 07-0301-1304

NOTICE OF RULEMAKING - PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 39-4107 and 39-4109, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than September 18, 2013.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Amendment of the 2012 edition of the International Residential Code was the result of negotiated rulemaking and the deliberations of a collaborative group consisting of members of the building industry, local building officials, code development officials, Board members, and other interested stakeholders. This amendment will eliminate a new provision of the IRC which requires floors in residences not already fire resistance rated to be enhanced with an additional structural fire protection on the underside of the floor assembly. This will be a cost saving to builders and property owners by eliminating the additional expense of installing fire protection membranes on the floor assemblies. The existence of the original provision in the Residential Code prior to amendment is primarily due to the short amount of time that may potentially exist for a fire to cause failure in manufactured I-joists which are commonly installed in residences. It provided additional protection to firefighters and officials who may be present to provide fire and life-safety services during a fire. However, several exceptions to the additional flooring protection requirement are already contained under the existing code provision. This rulemaking would amend the International Residential Code by deleting a section, including the exceptions thereto, that requires floor assemblies in one- and two-family dwellings which are not already fire-resistance rated to be enhanced by installing additional wallboard, wood or equivalent fire protection to the underside of the floor.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year resulting from this rulemaking:

No fiscal impact to the General Fund or the jurisdictions enforcing building codes, including the Division. Construction savings to builders and property owners was identified by proponents of the amendment.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted under Docket No. 07-0301-1301. The Notice of Intent to Promulgate Rules - Negotiated Rulemaking was published in the May 1, 2013 Idaho Administrative Bulletin, [Vol. 13-5, pages 60 and 61](#).

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule:

Amendment of the 2012 edition of the International Residential Code was the result of negotiated rulemaking and the deliberations of a collaborative group consisting of members of the building industry, local building officials, code development officials, Board members, and other interested stakeholders. This amendment will eliminate a new provision of the IRC which requires floors in residences not already fire resistance rated to be enhanced with an additional structural fire protection on the underside of the floor assembly. This will be a cost saving to builders and property owners by eliminating the additional expense of installing fire protection membranes on the floor assemblies. The existence of the original provision in the Residential Code prior to amendment is primarily due to the short amount of time that may potentially exist for a fire to cause failure in manufactured I-joists which are commonly installed in residences. It provided additional protection to firefighters and officials who may be present to

provide fire and life-safety services during a fire. However, several exceptions to the additional flooring protection requirement are already contained under the existing code provision. Section 39-4109, Idaho Code, requires the adoption of the above-referenced codes for the state of Idaho, and allows the Board to adopt subsequent editions and amendments thereto as it determines necessary.
